(7) Briefly explain the regulation in clear and nontechnical language	e. (100 words or less)			
This final omitted rulemaking moves table games, variations, are into final regulatory status.	nd side wagers temporary regulations			
(8) State the statutory authority for the regulation. Include <u>specific</u> s	statutory citation.			
The Pennsylvania Gaming Control Board's general authority is in 4 Pa.C.S. § 1202(b)(30)(relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 13A02(1) and (2).				

(9) Is the regulation mandated by any federal or state law or court order, or federal regulation? Are there any relevant state or federal court decisions? If yes, cite the specific law, case or regulation as well as, any deadlines for action.

There are no other applicable federal or state statutes, regulations or court decisions that mandate adoption of this rulemaking.

(10) State why the regulation is needed. Explain the compelling public interest that justifies the regulation. Describe who will benefit from the regulation. Quantify the benefits as completely as possible and approximate the number of people who will benefit.

This rulemaking will give certificate holders additional options in the games that they provide to patrons and is needed to establish the rules of play. Patrons who play these games will benefit from the standardization of the rules of play. Additionally, the games, variations, and side wagers which comprise this package, represent intellectual property which makes public commentary impracticable.

(11) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulations.

There are no corresponding federal standards for any of these provisions in this rulemaking.

(12) How does this regulation compare with those of the other states? How will this affect Pennsylvania's ability to compete with other states?

This rule making expands the compliment of table games available for play under final form regulations. The Board reviewed all payout tables submitted by the manufacturer/proprietary owner as part of the promulgation of temporary regulations. The regulatory requirements contained in this rulemaking allow Pennsylvania's regulated gaming market to remain competitive with other jurisdictions.

(13) Will the regulation affect any other regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

This regulation will not affect any other regulations of the PGCB nor any other state agency.

(14) Describe the communications with and solicitation of input from the public, any advisory council/group, small businesses and groups representing small businesses in the development and drafting of the regulation. List the specific persons and/or groups who were involved. ("Small business" is defined in Section 3 of the Regulatory Review Act, Act 76 of 2012.)

No other persons or groups were involved in the development and drafting of the regulation.

(15) Identify the types and number of persons, businesses, small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012) and organizations which will be affected by the regulation. How are they affected?

The regulations in this package represent the proprietary intellectual property of numerous

licensed gaming manufacturers. The movement of these regulations into final regulation status allows these manufacturer licensees to continue to market their products to the various licensed gaming operators in the Commonwealth to be offered for play by the operators gaming patrons. These final regulations ensure that Pennsylvania's gaming operators continue to have access to competitive gaming product offerings across both the brick-and-mortar and online gaming markets in the Commonwealth. To date, Pennsylvania's gaming operators include 17 operations brick-and-mortar casino facilities, one casino facility yet to be opened, and more than 20 online casino/apps offerings. The Board is of the belief that the manufacturers and operators affected by this regulatory package would not qualify as small businesses as defined in the United States Small Business Administration's Small Business Size Regulations, under 13 C.F.R. Ch. 1 Part 121.

(16) List the persons, groups or entities, including small businesses, that will be required to comply with the regulation. Approximate the number that will be required to comply.

Any slot machine licensee (18), interactive gaming certificate holder (12) or interactive gaming operator who offers online games under an interactive gaming certificate (10) that seeks to offer the games contained in this rulemaking will be required to comply with the requirements of this rulemaking.

(17) Identify the financial, economic and social impact of the regulation on individuals, small businesses, businesses and labor communities and other public and private organizations. Evaluate the benefits expected as a result of the regulation.

It is not anticipated that this rulemaking will have a negative financial or economic impact on the regulated community. The regulations comprising this final-omitted package are presently temporary regulations authorizing numerous table games, variations, and side wagers. Movement of these regulations into final status ensures the regulated gaming market in Pennsylvania retains access to gaming products and remains competitive.

(18) Explain how the benefits of the regulation outweigh any cost and adverse effects.

The movement of the regulations from temporary to final status ensures continued market access and a portfolio of diverse games remains available to the regulated gaming industry. Movement by way of final-omitted procedures is warranted as the regulations in question pertain to proprietary intellectual property in gaming products which renders any public commentary impracticable. It is not anticipated that there will be any adverse effects associated with these regulations being moved into final regulation status.

(19) Provide a specific estimate of the costs and/or savings to the **regulated community** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

PGCB licensees that decide to offer the games covered by these regulations will be required to submit updated rules submission forms and internal controls to reflect any addition. The rules forms are simple checklists that take little time to complete, and are available to operators electronically and are also submitted electronically. Any costs incurred to purchase equipment

and train employees should be offset by the proceeds of gaming.

(20) Provide a specific estimate of the costs and/or savings to the **local governments** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

This rulemaking will have no fiscal impact on local governments. Host municipalities and counties will benefit from the local share funding that is mandated by the Pennsylvania Race Horse Development and Gaming Act of 2004, as amended.

(21) Provide a specific estimate of the costs and/or savings to the **state government** associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required. Explain how the dollar estimates were derived.

The Board does not expect that the requirements of this rulemaking will have any fiscal impact on the Board or any other Commonwealth agency. Internal control procedures and table games rules submission forms will be reviewed by existing Board Staff.

(22) For each of the groups and entities identified in items (19)-(21) above, submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.

As stated above, if an operator would like to offer the games contained in this rulemaking, the operator will have to submit updated internal controls, rules submission forms, layout schematics, etc. for approval. The rules submission forms are straightforward checklists and are submitted electronically.

(22a) Are forms required for implementation of the regulation?

Yes, operators will be required to electronically submit a rules submission form for approval before offering the table game.

(22b) If forms are required for implementation of the regulation, attach copies of the forms here. If your agency uses electronic forms, provide links to each form or a detailed description of the information required to be reported. Failure to attach forms, provide links, or provide a detailed description of the information to be reported will constitute a faulty delivery of the regulation.

Copies of the checklists that operators would be required to complete and electronically submit to the agency prior to offering any of the covered games, variations, or side wagers can be found on the PGCB website at https://gamingcontrolboard.pa.gov/licensing/table-games-rules-submission-request-form.

(23) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

The intent of the regulations is to provide additional gaming products for offer in Pennsylvania. To the extent that these regulations may have an effect on gaming revenues, it is anticipated that

they would result in protection of or increases to present gaming revenues. With regards to local governments, they are not subject to these regulatory provisions and therefore will feel no fiscal impact. To the extent that certain local governments/ host communities enjoy local share assessments derived from gaming revenues, it is anticipated that these regulations would lead to a protection of or increase to present local shares. The regulation is anticipated to be economically neutral to PGCB; PGCB is not proposing this regulation to generate revenue, nor is this regulation anticipated to affect PGCB's incurred costs or staffing levels. Relative to the regulated community, these regulations do not prescribe any change in the process by which gaming products enter the Pennsylvania market.

⁽²⁴⁾ For any regulation that may have an adverse impact on small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012), provide an economic impact statement that includes the following:

(a) An identification and estimate of the number of small businesses subject to the regulation.

The slot machine licensees (18), interactive gaming certificate holders (12) or interactive gaming operators who offers online games under an interactive gaming certificate (10) will be impacted by this rulemaking. However, the Board is of the belief that those affected by this regulatory package do not qualify as small businesses as defined in the United States Small Business Administration's Small Business Size Regulations, under 13 C.F.R. Ch. 1 Part 121.

(b) The projected reporting, recordkeeping and other administrative costs required for compliance with the proposed regulation, including the type of professional skills necessary for preparation of the report or record.

As all rules submission forms are simple to complete and are submitted to the PGCB electronically, it is not anticipated that there will be any significant reporting, recordkeeping or other administrative costs associated with this regulation.

(c) A statement of probable effect on impacted small businesses.

As stated above, the Board is of the belief that none of the entities reasonably anticipated to be affected are small businesses.

(d) A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed regulation.

Not applicable.

(25) List any special provisions which have been developed to meet the particular needs of affected groups or persons including, but not limited to, minorities, the elderly, small businesses, and farmers.

No special provisions have been added.

(26) Include a description of any alternative regulatory provisions which have been considered and rejected and a statement that the least burdensome acceptable alternative has been selected.

No alternative regulatory approaches were considered as this rulemaking contains the rules and procedures for multiple table games, variations, and side wagers. This regulation reflects the least burdensome means of maintaining regulatory oversight of this activity, as presently prescribed by the laws and regulations of this Commonwealth.

- (27) In conducting a regulatory flexibility analysis, explain whether regulatory methods were considered that will minimize any adverse impact on small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012), including:
 - a) The establishment of less stringent compliance or reporting requirements for small businesses;
 - b) The establishment of less stringent schedules or deadlines for compliance or reporting requirements for small businesses;
 - c) The consolidation or simplification of compliance or reporting requirements for small

businesses:

- d) The establishment of performance standards for small businesses to replace design or operational standards required in the regulation; and
- e) The exemption of small businesses from all or any part of the requirements contained in the regulation.

Not applicable to this rulemaking. To the extent that a qualifying small business is subject to affects of these regulations, such small business will be treated equally to all affected entities, so as to not create unfair business advantage.

(28) If data is the basis for this regulation, please provide a description of the data, explain <u>in detail</u> how the data was obtained, and how it meets the acceptability standard for empirical, replicable and testable data that is supported by documentation, statistics, reports, studies or research. Please submit data or supporting materials with the regulatory package. If the material exceeds 50 pages, please provide it in a searchable electronic format or provide a list of citations and internet links that, where possible, can be accessed in a searchable format in lieu of the actual material. If other data was considered but not used, please explain why that data was determined not to be acceptable.

There is no data, as defined under section (3) of the Regulatory Review Act (71 P.S. § 745.3), upon which this rulemaking is based.

The Pennsylvania Gaming Control Board ("Board" or "PGCB"), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. § 13A02(1) and (2) (relating to regulatory authority) and section 204 of the act of July 31, 1968 (P.L.769, No.240), known as the "Commonwealth Documents Law," adopts the final-omitted regulations to read as set forth in Annexes A and B. The Board's regulations will be added to Part VII (relating to Gaming Control Board) as part of Subpart K (relating to table games).

Purpose of this Final-Omitted Rulemaking

This final-omitted rulemaking adopts existing temporary regulations related to table games rules and procedures into final form regulations.

Explanation

The regulations which comprise this final-omitted regulation package represent the rules and procedures for table games, variations on table games, and side wagers to table games. To date, these games, variations, and side wagers have been adopted as temporary regulations pursuant to authority granted to PGCB. As part of the PGCB review process, which precedes PGCB promulgating temporary table game regulations, the rules and procedures of the games, variations, and/or side wagers were reviewed, including a mathematical analysis. In each case it was determined that the game, variation, and/or side wager met the acceptable parameters to be offered to patrons in Pennsylvania.

Annex A outlines those sections of temporary table games regulations that are being removed and reserved. Annex B reflects those sections of temporary table games regulations that are being moved into final regulation status. The regulations comprising Annex B match the language of the temporary regulation language being removed under Annex A, except for minimal edits relating to cross references or to incorporate consistent language and phrasing.

Section 204 of the Commonwealth Document Law establishes three circumstances in which an agency is permitted to promulgate final-omitted regulations: 1. Comments from the public are not appropriate, necessary, or beneficial; 2. All persons subject to the regulation are named or given personal notice; and/or 3. Notice is impracticable, unnecessary, or contrary to the public interest.

The regulations of this final-omitted regulation package meet the contemplated criteria for final-omitted regulations under the Commonwealth Document Law.

1. Comments from the public are not necessary, appropriate, or beneficial.

The regulations in this package represent the rules and procedures of table games, variations, and/or side wagers which are the intellectual property of PGCB licensees, rendering public comments, and edits derived therefrom, unnecessary. The present temporary regulation language adopted by PGCB, and now being moved into final form regulation language, represents authorization of games, variations, and/or side wagers covered by intellectual property rights of PGCB licensees. PGCB licensees are not willing to relinquish their intellectual

property protections in these games/wagers as a direct result of public commentary. It is anticipated that alterations in regulatory language which would alter the rules/procedures outside the scope of present intellectual property protections would result in PGCB licensees removing the relevant gaming product(s) from the Pennsylvania market. As the regulations are specific to a particular licensee's intellectual property, any edit to the terms of the game amount to a revocation of an authorized gaming product. A reduction to the number of options available to both the regulated community and gaming patrons will result in a contraction in gaming revenues to operators, and gaming taxes received throughout the Commonwealth.

2. Persons subject to the regulations have received notice.

Except for the present edits relating to cross referencing or incorporation of consistent phrasing, the regulations comprising this final-omitted package are presently in force and effect as temporary regulations. In order to become temporary regulations, the process begins with PGCB licensees making a table games submission, which in part seeks temporary table game regulations be promulgated and in part seeks PGCB to grant approval for the game/wager to be authorized for play in Pennsylvania. PGCB's issuance of authorization for any game or wager provides that such game/wager is subject to the relevant regulatory provisions—be those previsions temporary regulations or final form regulations. Those entities with the greatest interest in the contents of the present final-omitted regulations received notice of the relevant regulations as part of the PGCB notification that their requested game/wager has been approved for play in the Commonwealth. Having given notice to the relevant parties, PGCB has not received comments on the regulatory language, and therefore is moving the temporary regulations forward through the final-omit process.

3. Notice is impracticable, unnecessary, or contrary to the public interest.

Specifically, the editing being made represent a corrective measure for which notice and comment is unnecessary, and generally impracticable. Some sections of regulations have been discovered to contain typos. The edits correct such errors and ensure proper cross references.

Fiscal Impact

Commonwealth. The Board does not expect that this final-omitted rulemaking will have a fiscal impact on the Board or other Commonwealth agencies. Any updates to Rules Submission forms and internal control procedures will be reviewed by existing Board staff.

Political subdivisions. This final-omitted rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

Private sector. This final-omitted rulemaking codifies temporarily approved table games, variations, and side wagers into final form and thereby provides certificate holders with additional table game options. If a certificate holder decides to offer, or continue to offer, any of the table games, side wagers and/or variations codified under these final form regulations, the certificate holder will be required to train their dealers on the rules of play and purchase new equipment—specifically table layouts corresponding to the game and wagers offered. Costs incurred to train employees or purchase/lease equipment should be offset by the proceeds of gaming.

General public. This final-omitted rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

If a certificate holder seeks to offer any of the table games, side wagers, or variations contained in these regulations the certificate holder will be required to submit a Rules Submission form reflecting the choices in how the game will be offered and with the selected side wagers and variations identified. These forms are available on the Board's public website and submitted to Board staff electronically.

Effective Date

This final-omitted rulemaking will become effective upon publication in the Pennsylvania Bulletin.

Regulatory Review

Under section 5.1(c) of the Regulatory Review Act (71 P.S. § 745.5a(c)), the Board submitted a copy of the final-omitted rulemaking and a copy of the Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC), to the Chairpersons of the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee, and to the Attorney General.

Findings

The Board finds that:

- (1) Public notice of intention to adopt these amendments and opportunity for public comment may be omitted pursuant to section 204 of the act of July 31, 1968 (P.L. 769, No. 240) and the regulations thereunder, 1 Pa. Code §§ 7.4 (relating to omission of notice of proposed rulemaking).
- (2) The adoption of the regulations prescribed in Annexes A and B are necessary and appropriate for the administration and enforcement of 4 Pa.C.S. Part II (relating to gaming).

Order

The Board, acting under 4 Pa.C.S. Part II, orders that:

- (1) Subpart K. Table Games of the regulations of the Board be amended to read as set forth in Annex A.
- (2) Subpart K. Table Games of the regulations of the Board be amended, and the addition of variations and side wagers final regulations be added, as set forth in Annex B.
- (3) The Chairperson of the Board shall certify this order and Annexes A and B and deposit them with the Legislative Reference Bureau as required by Law.
- (4) This order shall take effect upon publication in the Pennsylvania Bulletin.

§ 633c.3. Match the Dealer Progressive wager.

- (a) A certificate holder may offer players the option to place a Match the Dealer

 Progressive wager that one or both of the player's cards will match the dealer's upcard in one of the following combinations:
- (1) Two Suited Match, Aces of Spaces—Both of the player's cards and the dealer's upcard are matching aces of spades.
- (2) Two Suited Match, All Others—Both of the player's cards and the dealer's upcard are matching in suit and rank.
- (3) One Non-Suited Match and One Suited Match—One of the player's cards matches the suit and rank of the dealer's upcard and the player's other card matches the rank of the dealer's upcard.

- (4) One Suited Match—One of the player's cards matches the suit and rank of the dealer's upcard.
- (5) Two Non-Suited Matches—Both of the player's cards match the rank of the dealer's upcard.
- (6) One Non-Suited Match—One of the player's cards matches the rank of the dealer's upcard.
- (b) The Match the Dealer Progressive wager may be played on a Blackjack table that utilizes 6 or 8 decks of cards.
- (c) The layout for a Blackjack table shall be submitted to the Bureau of Gaming
 Operations and approved in accordance with § 601a.10(a) (relating to approval of table
 game layouts, signage and equipment) and if the certificate holder offers the Match the

 Dealer Progressive wager, in addition to the requirements in § 633a.2 (relating to

 Blackjack table; card reader device; physical characteristics; inspections) the layout shall
 contain a separate area designated for the placement of the Match the Dealer Progressive
 wager for each player.
- (d) If the certificate holder is offering the Match the Dealer Progressive wager, the Blackjack table must have a progressive table game system, in accordance with § 605a.7 (relating to progressive table games), for the placement of the Match the Dealer Progressive wager. If the certificate holder is offering a Progressive Payout Wager on multiple linked tables or games in the same licensed facility, the progressive table game system must comply with the requirements in § 605a.8 (relating to linked progressive table games). The progressive table game system must include:

- (1) A wagering device at each betting position that acknowledges or accepts the placement of the Progressive Wager.
- (2) A device that controls or monitors the placement of Progressive wagers at the gaming table, including a mechanism, such as a lock-out button, that prevents the recognition of any Progressive wager that a player attempts to place after the dealer has announced "No more bets."
- (e) If specified in its Rules Submission required under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a

 Blackjack wager in accordance with § 633a.6(d) (relating to wagers), the option of placing a Match the Dealer Progressive wager of \$1 or \$5.
- (f) After placing a Blackjack wager, as required in § 633a.6(d), and any optional wagers including the Match the Dealer Progressive wager, the dealer shall announce "No more bets" and, if the Match the Dealer Progressive wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive wagers. If any Progressive wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.
- (g) The dealer shall then deal the cards in accordance with § 633a.7(a)-(g) (relating to procedure for dealing the cards; completion of each round of play). Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt, the dealer shall settle the Match the Dealer wager as follows:

- (1) If the player does not have a card that matches the dealer's upcard, the Match the Dealer Progressive wager shall lose and the dealer shall continue the hand in accordance with § 633a.7(i)--(t).
- (a), the dealer shall settle the Match the Dealer Progressive wager as provided in subsection (h).
 - (h) If a player has won a Match the Dealer Progressive payout, the dealer shall:
 - (1) Verify that the hand is a winning hand.
- (2) Verify that the appropriate light on the progressive table game system has been illuminated.
- (3) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.
- (4) Pay the winning Match the Dealer Progressive wager in accordance with the payout odds in subsection (i). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.
- (i) The certificate holder shall pay out winning Match the Dealer wagers, for the winning combination formed, at the odds in one of the following payout tables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

Dear Mr. Sumner:

Enclosed with this letter please find a copy of a final-omitted rulemaking for review by the Independent Regulatory Review Commission ("Commission") from the Pennsylvania Gaming Control Board ("Board"). This final-omitted rulemaking moves rules and procedures governing table games, variations, and side wagers from temporary regulations into final regulation status. This final-omitted rulemaking was adopted by the Board on October 18, 2023, but subsequently withdrawn on November 29, 2023, so that corrections could be made. This final-omitted rulemaking was e-Delivered to the Majority Chair and Minority Chair of the House Gaming Oversight Committee, and the Majority Chair and Minority Chair of the Senate Community, Economic and Recreational Development Committee. Confirmation of the deliveries to the Committees is contained in the final form rulemaking packet. Additionally, this final-omitted rulemaking was e-Delivered to the Attorney General's Office, and confirmation of that delivery is also contained in the packet.

Sincerely.

Robert Wood Assistant Chief Counsel
