To Whom it May Concern,

Over the past several years one of the biggest challenges for our independent pharmacy has been the explosion of regulation that we are forced to adhere to. I understand that this is in the name of public safety and reasonable people can disagree on the need and extent of various regulations.

The new regulations for technician registration that are being proposed will not only add to the tremendous burden that we already bear but will do nothing to increase the safety and well being of the public. Our technicians are well trained and constantly overseen. No prescription can go out to a patient unless it is checked by a pharmacist as you know.

Please let us concentrate on the work of caring for our patients and not paperwork.

Thanks,  
Daniel Heller  
Medical Tower Pharmacy Manager
