Subject: Docket #2783 and Docket #2806, Erosion and Sedimentation Control and Wastewater

Commissioners Coccodrilli, Bedwick, Lutkewitte, Mizner, and Fineman:

RE: Docket Number #2783 [EQB 7-440: Erosion and Sedimentation Control]

RE: Docket Number #2806 [EQB 7-446: Wastewater]

I strongly urge you to approve the Environmental Quality Board's proposed revisions to the Chapter 102 regulations, including the section that would mandate 150 foot buffers for new development along Exceptional Value and High Quality streams. I also strongly urge you to approve its new regulations on Wastewater, including the section that requires natural gas drillers to treat their wastewater before they release it into our waterways, to the point that it has no more than 500 milligrams per liter (mg/L) of Total Dissolved Solids (TDS) and 250 mg/L each of Sulfates and Chlorides.

Please approve these regulations on June 17th.

Sincerely,
Fred Ehmann
