IRRC Regulator  
PA

Dear Regulator,

Please help protect water quality in our rivers and streams. Two important regulations are now before the Independent Regulatory Review Commission (Nos. 2783 and 2806). Amendments to 25 Pa. Code Chapter 95 require that gas drilling wastewater be treated before being discharged into our rivers and streams. Amendments to 25 Pa. Code Chapter 102 require a buffer zone for development activities along our Pennsylvania's best rivers and streams.

Pennsylvania's streams and rivers are one of our most precious natural resources, and it is important that we do a better job to protect them. It sickens me to know about the damage that we could do.

Please protect the water quality of our rivers and streams. It's the only responsible option.

I support the adoption of these regulations. Please let the Independent Regulatory Review Commission know you support them as well.

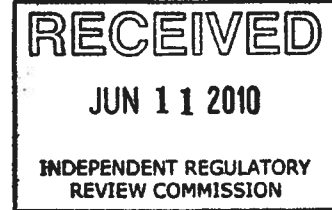

Sincerely,

Ms. Rebecca Porch  
714 Annin St  
Philadelphia, PA 19147-5109

Pennsylvania's streams and rivers are one of our most precious natural resources, and it is important that we do a better job to protect them.

This does not affect us, as much as it is going to affect our children and that is what worries me the worst. Everyone of these adults that sign these papers to let them go ahead a drill on their properties and other places are thinking of themselves and no one else. Me, I'm thinking ahead about my kids and that bothers me more than I can explain. All of this should be stopped, all

I support the adoption of these regulations. Please let the Independent Regulatory Review Commission know you support them as well.

Sincerely,

Pennsylvania's streams and rivers are one of our most precious natural resources, and it is important that we do a better job to protect them.

Especially in light of the recent incident in Clearfield Co. this is a matter that must be addressed correctly. As a lifelong resident of Pennsylvania, I treasure our natural resources. You have the power to help protect them for generations of Pennsylvanians to come. Please make the right decision regarding this crucial matter.

I support the adoption of these regulations. Please let the Independent Regulatory Review Commission know you support them as well.

Sincerely,

Mrs. Charles Dalin

IRRC Regulator  
PA

Dear Regulator,

Please help protect water quality in our rivers and streams. Two important regulations are now before the Independent Regulatory Review Commission (Nos. 2783 and 2806). Amendments to 25 Pa. Code Chapter 95 require that gas drilling wastewater be treated before being discharged into our rivers and streams. Amendments to 25 Pa. Code Chapter 102 require a buffer zone for development activities along our Pennsylvania's best rivers and streams.

Pennsylvania's streams and rivers are one of our most precious natural resources, and it is important that we do a better job to protect them.

I support the adoption of these regulations. Please let the Independent Regulatory Review Commission know you support them as well.

Sincerely,

Ms. Melanie Bowser  
264 Ridge Rd  
Worthington, PA 16262-5020  
(724) 297-3775
