Subject: No. 2806 Environmental Quality Board #7-446:

Message:

To Whom it May Concern: We participated along with many other private citizens, gas industry and ancillary companies and oil/gas organizations in the public comment period concerning the proposed regulations. The proposed regulations are a reasonable avenue for the proper management of increased wastewater treatment that will be generated primarily within Marcellus Shale Natural Gas regions. We ask that the IRRC adopt these proposed regulations at the Thursday meeting this week, and move forward protecting the Commonwealth of PA. Thank you. Sincerely, David & Emily Krafjack
