1 June, 2010

To the Environmental Quality Board:

RE: (Regulation ID #7-458 (#2842))

The Remining Financial Guarantee program in Pennsylvania has resulted in reclamation of Abandoned Mine Lands and so, is of great interest to my organization and to Pennsylvania's Abandoned Mine Reclamation community as a whole. It is of great importance that Pennsylvania continue to facilitate reclamation of Abandoned Mine Lands whenever possible.

I respectfully request that EQB keep me informed when it moves to adopt the proposed regulation as a final rule.

Thank you.

Andrew P. McAllister
