Subject: 25 Pa. Code Ch.78

Greetings:

I am writing today to voice my concern about gas drilling in PA. Knowing nothing of gas drilling but after seeing the movie "Gasland" I realize this type of drilling, fracking, is relatively new and the adverse ramifications are frightening. If only half of that movie is accurate it is still frightening. Those poor people in Dimock, PA can't use their well water anymore!

I live in Bucks County so drilling in the Delaware River Watershed and Nockimixon Township could directly affect me and my family. Water is THE most important natural resource we have...we can't live without water. Please take your time to research gas drilling and put very stringent safe-guards on any drilling activity. Tax these gas companies so that the DEP can hire skilled inspectors and researchers to protect the health, safety and welfare of the residents of Pennsylvania.

Regards,
