Subject: Proposal for State REgulation for Oil and Gas Wells (Marcellus Shale)

To Whom It May Concern:

I am a concerned citizen and parent of Pennsylvania. I was born in this state, and have lived here virtually my entire life. I have chosen to raise my family in Pennsylvania because I have always loved the combination of city, suburban, and rural all within a short distance of home. I am very concerned for my young children about the current and future cleanliness of drinking water supplies and land.

Therefore, I strongly support the proposed regulation to strengthen regulations for oil and gas wells. I understand we need to tap as many sources of energy as possible, but we need to do it safely for our citizens and our environment. I don't want to fear for the health and safety of my family, or for everyone we know throughout this beautiful state.

Thank you very much.
