Dear Friend of Pennsylvania Residents,

Our residence is on 11.7 acres on Beaver Run in East Nantmeal Township in Chester County approximately one mile from its juncture with French Creek.

I am writing to express my strong support for the upgrade of the Main Stem of the French Creek and the Beaver Run Basin from a "High Quality" designation to the designation of "Exceptional Value".

We cross Beaver Run at the bridge on our lane several times daily. Each time we wonder at its clearness and richness in aquatic and other wildlife. Beaver Run is alive and needs the highest level of protection to be kept that way.

As French Creek is so near, we frequently hike and bike on trails along its bank....and fish for trout in this wonderful stream. It is also a gem to be recognized and protected.

Testing by a number of organizations, including the PA DEP, have repeatedly confirmed that these waters qualify for the highest level of special protection, Exceptional Value.

These precious natural resources serve our community in many ways. They are irreplaceable water resources and deserve the protection afforded by EV status. As part of Pennsylvania's Scenic River Program, these free flowing waters are amongst the most beautiful features of Pennsylvania. Please vote to protect them.

Sincerely,

*John & Gail Krause
