Please,

We can upgrade the Main Stem of the French Creek and Beaver Run Basin to a designation of "Exceptional Value."

This water way surrounds two-thirds of my property. It is magical for swimming, fishing, kayaking (at high water). I've seen many king fishers and two great blue herons, also a bittern once. The creek is full of craw dads and other interesting water critters. My community's health absolutely depends on the clarity and flowing beauty of the waters here.

If water quality tests repeatedly show that it qualifies for "Exceptional Value" status, then we must protect the water with all the legal means available. I learned about this issue from the Green Valley's Association; they and the PA DEP together are working to keep our environment alive!

Thank you so much,
Alice Dworkin
