RE: 25 PA. CODE CH. 105-EQB Proposed Rule Making

FROM: Carol J. Kafer
President
Loyalsock Creek Watershed Association
888 Butternut Grove Road
Montoursville, PA 17754

On behalf of the Board of Directors and the Members of the *Loyalsock Creek Watershed Association*, I urge the EQB to amend the portion of Chapter 105 relating to dam safety and water management to update existing fees and include additional fees. These additional fees are desperately needed to support review of permit applications. The additional fees will also support more inspections to insure the safety of citizens and their property, and to protect the ecology of our rivers and creeks. My understanding is that the current fees have not increased since 1991 and cannot support the existing functions of the Departments Dam Safety and Water Management programs. Please make it possible for the Dam Safety Program to better protect the public and our environment.

Sincerely,

Carol J. Kafer
