Regulation No. 7-469 (#2930)
Environmental Quality Board
Flexible Packaging Printing Presses, Offset
Lithographic Printing Presses and Letterpress
Printing Presses, Adhesives, Sealants, Primers
and Solvents

On January 31, 2012, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (EQB). This rulemaking amends 25 Pa. Code Chapters 121, 129 and 130. The proposed regulation was published in the February 11, 2012 *Pennsylvania Bulletin* with a 65-day public comment period. The final-form regulation was submitted to the Commission on March 21, 2014.

This final-form rulemaking limits emissions of volatile organic compounds from inks, varnishes, coatings, adhesives, fountain solutions and cleaning solutions applied on and with flexible packaging printing presses, offset lithographic printing presses and letterpress printing presses.

We have determined this regulation is consistent with the statutory authority of EQB (35 P.S. §§ 4005(a)(1) and 4005(a)(8)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

BY ORDER OF THE COMMISSION:

This regulation is approved.

A handwritten signature in black ink, appearing to read "John F. Mizner", is written over a horizontal line. The signature is stylized and cursive.

John F. Mizner, Esq., Chairman
