

**INDEPENDENT REGULATORY REVIEW COMMISSION  
APPROVAL ORDER**

Commissioners Voting:

Public Meeting Held August 18, 2016

George D. Bedwick, Chairman  
W. Russell Faber  
Murray Ufberg, Esq.  
Dennis A. Watson, Esq.

Regulation No. 7-491 (#3109)  
Environmental Quality Board  
Control of Volatile Organic Compound  
Emissions from Miscellaneous Metal Parts  
Surface Coating Processes, Miscellaneous  
Plastic Parts Surface Coating Processes and  
Pleasure Craft Surface Coatings

On July 13, 2015, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (EQB). This rulemaking amends 25 Pa. Code Chapter 129. The proposed regulation was published in the August 8, 2015 *Pennsylvania Bulletin* with a 67-day public comment period. The final-form regulation was submitted to the Commission on July 15, 2016.

This regulation adds reasonably available control technology (RACT) requirements and RACT emission limitations for the control of volatile organic compound emissions from miscellaneous metal parts surface coating processes, miscellaneous plastic parts surface coating processes and pleasure craft surface coatings.

We have determined this regulation is consistent with the statutory authority of the EQB (35 P.S. § 4005(a)(1) and (8)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

**BY ORDER OF THE COMMISSION:**

This regulation is approved.

  
George D. Bedwick, Chairman
