Dear EQB members,
As a fisherman and resident of Potter County, I strongly support the proposed use re-designation to HQ-CWF of Mill Creek from its source to North Hollow. The density of the wild trout population as well as the diversity of macro-invertebrate life present in Mill Cr. reflects its excellent water quality. It deserves the additional regulatory protection afforded by this use re-designation. Also as a fisherman throughout PA, I strongly support the use re-designation to HQ-CWF for all of the streams segments listed in proposed rulemaking. I also thank the PA DEP and the EQB for initiating the process of eliminating the backlog of Class A Wild Trout Waters that merit re-designation to to HQ-CWF!!
