Mechanicsburg, PA 17055 US

Comments entered:

I support the Class A designations in this rule making. The rule making will give these cold water streams the protection they deserve. This should have been done years ago. These are among the best trout streams in the state. They hold wild trout, "free" a self-renewing resource when compared to the cost of raising and stocking trout. The rule making will also assure these streams will be there for the fishing enjoyment of future generations.
