**Comments entered:**

I am submitting comments in support of rescinding the requirements for low RVP gasoline in the Pittsburgh-Beaver Valley Area of southwestern Pennsylvania which includes the counties of: Allegheny, Armstrong, Beaver, Butler, Fayette, Washington and Westmoreland.

Eliminating this requirement will help to reduce the cost of gasoline to the consumer and should improve the efficiency of vehicles and equipment that run on gasoline.

Due to the improved fuel efficiency and the pollution requirements of newer automobiles, the elimination of this gasoline should not have an adverse impact on the quality of air in those counties.

Thank you.
