Subject: Comment received - Proposed Rulemaking: Gasoline Volatility Requirements

Re: eComment System

The Department of Environmental Protection has received the following comments on Proposed Rulemaking: Gasoline Volatility Requirements.

Comments entered:

I am submitting comments in support of rescinding the requirements for low RVP gasoline in the Pittsburgh-Beaver Valley Area of southwestern Pennsylvania which includes Beaver County where I live

I feel eliminating this requirement will help to reduce the cost of gasoline and should improve the efficiency of cars.

Fuel is more efficiency with little or no pollution so the elimination of this gasoline should not impact our area.

Thank you.
