**Subject:** Regulation #7-521: Safe Drinking Water; General Update and Fees

Dear IRRC:

I would like align my company's support to comments on the above subject to comments made by Tower Springs LLC. Also, many of the details within the regulation modifications are not scientifically sound nor does the department have the staff to evaluate much of the science properly. Many of the referenced documents are not germane to Pennsylvania water supplies. Lastly the new Fee structure will not only hinder the private sector but the general public as well.
