**Comments entered:**

I am summarizing the concerns of our County Sourcewater Coalition group; in particular the fee schedule. I am sure there is a thought that this fee can be passed on to the consumers – and in all fairness it will be. However, with each new testing requirement, equipment purchases, permit fees, feasibility studies, etc being passed onto the consumer – there is a minute portion left for emergency repairs or capital projects. It hardly seems appropriate to ask our systems across the board to fix the Department Environmental Protection Agency’s budget shortfalls by over extending ours. With some systems serving as few as 55 users, it is a burdensome task.
