**Comments entered:**

I am writing to voice support for the plan to raise funds to keep Pennsylvania's clean air programs funded by increasing fees for the state's largest air polluters. Many Pennsylvanians live in areas that that received a grade of "F" from the American Lung Association for soot and smog pollution. I work for a health system and know that too many of our children suffer from asthma. Plus, we are seeing a scary rise in lung cancer among non-smokers.

I definitely do not want to see rollbacks to clean air programs or pollution monitoring. In fact, this is a time when the DEP should be hiring additional scientists and engineers and working toward improving the air quality in PA.

Thank you for the opportunity to publicly comment on this important matter.
