Dear Members Commissioners,

You are continuing to try to take the residents of Pennsylvania down a road of ruin. This, coupled with your arbitrary and unfair lockdowns over the past year and a half, have already successfully destroyed a good portion of our economy. This will be another horrible step in the direction of ruining the state's economy beyond repair.

Pennsylvanians cannot afford increased energy costs and that is what entering the RGGI will mean because energy companies will pass the additional costs along to the consumer. The increase in electric bills alone will be about 18 percent. Pennsylvanians simply cannot afford this! The hardest hit will be low income families, those on fixed incomes and the elderly. Additionally, some power plants will be forced to close eliminating good paying jobs - jobs that families depend upon to survive. This is NOT a good idea and I urge you to reject Regulation #7-559 (IRRC #3274): C02 Budget Trading Program (RGGI).

Sincerely,

Alan Edlund
