Dear Members Commissioners,

Why are you considering this regulation at a time Pennsylvania is struggling to recover from COVID-19 shutdowns? I cannot afford for my electric bills to increase by 18%. And many families are in tighter financial situations than I am. Please think of the citizens of our commonwealth and not just an agenda.

Pennsylvanians cannot afford increased energy costs and that is what entering the RGGI will mean because energy companies will pass the additional costs along to the consumer. The increase in electric bills alone will be about 18 percent. Pennsylvanians simply cannot afford this! The hardest hit will be low income families, those on fixed incomes and the elderly. Additionally, some power plants will be forced to close eliminating good paying jobs - jobs that families depend upon to survive. This is NOT a good idea and I urge you to reject Regulation #7-559 (IRRC #3274): C02 Budget Trading Program (RGGI).

Sincerely,

Cheryl Campbell
