Dear Members Commissioners,

We in PA are as trapped as the Americans in Afghanistan because all Democrats do is destroy everything in America that is good and Dems always want money for their own pockets and elite lifestyles. Gov Wolf doesn't care about us at all. Senators don't care. President is so incompetent and corrupt as is Pelosi and her theatrical house. When Obama could get away with cancelling peoples health insurance with a stroke of a pen to implement the ACA law i learned that Democrats exist to kill us all from birth to old age. Gov Wolf in my opinion is self absorbed with his own agenda like all liberals and we don't matter. They are not there to serve the people. Evidence was clear when they wasted 4 years hating President Trump more than working for the country and the people. The dems do not SERVE. They are corrupt dictators.

I can barely get by on a fixed income but nothing will change until the conservatives and younger Republicans get voted into government. It won't happen in my lifetime. The last election was fixed and we have a president with dementia and Marxist puppeteers behind him. He is causing chaos in our country and now the world. Our allies see it clearly and it is a disgrace how out of touch with any reality our president and his groupies are at present. Our FREEDOMS are gone. God help the USA! ususus

PA citizens are already suffering and now you are considering an increase in our electric bills by 18 percent! You need to listen to 73 percent of PA businesses owners who oppose entering the Regional Greenhouse Gas Initiative and the resulting cap and trade tax. How many of these businesses will leave PA and go to states that don't have these additional energy costs? How many Pennsylvanians will be out of work if you approve this move? The economic cost is incalculable and Pennsylvania must not go down this road to economic doom. With increased energy costs how many low income families, those on fixed incomes and the elderly will have to decide between eating or staying warm in the cold PA winter? That decision is in your hand and I urge you to reject Regulation #7-559 (IRRC #3274) C02 Budget Trading Program (RGGI).

Sincerely,

Kathy McGreevy
