Dear DEP Regulatory Comments,

Please consider the following before finalizing its proposed revisions to Chapter 105.

I am concerned that the EQB consulted with industry groups early in the revision process, specifically by presenting proposed revisions and seeking additional input from the Pennsylvania Chamber of Business and Industry, without giving such an opportunity to public interest and environmental groups.

The EQB needs to equally consider feedback from public interest groups who speak up for the health and safety of the public and the environment. The EQB should now give comments from environmental and public interests groups significant consideration and their comments should be treated as an opportunity for further dialogue and contribution.

Respectfully,

Sincerely,
