Comments entered:

As a PA resident, I am a Supporter for Stronger Chapter 105 Regulations to Protect Our Precious Freshwater, Riparian Buffers and Floodplains. We only have one earth, and it is our responsibility to take care of it for future generations. We have done a bang-up job of polluting the earth, now we have to clean it up or pay the price. We have already seen the damage caused by storm runoff, climate change, and failure to protect wetlands and waterways. NOW, before it is too late, is the time to increase care not diminish it, if we hope to maintain the health of our waterways and our planet.

No attachments were included as part of this comment.

Please contact me if you have any questions.

Sincerely,
Jessica Shirley
