It is illegal for you to interfere with privately owned and operated schools!

If people actually believe or think your public school money-laundering and indoctrination system is best, they will send their children there!

The more you attempt to interfere with the free market, the more problems and destruction you create!

The more people learn of the benefits of charter schools, the more you appear as a failure and a danger to academic and educational freedom, values and success!

Thank-you,
Tom Adams
