I would like to submit comment on Regulation #6-349: Charter Schools and Cyber Charter Schools.

I am concerned with issues of accountability, equity, quality, and transparency with charter schools in Pennsylvania. I strongly support these regulations, which will create transparency and clarity on charter schools' enrollment processes. For example, a rigorous and standardized charter application process will allow charter authorizers to hold prospective charter schools to high academic, fiscal, and administrative standards and help authorizers ensure charter schools are prepared to equitably serve all students. These regulations will bring clarity to the law and help to make charters more transparent and ethical and will benefit students and ensure that students will not be discriminated against based on intellectual or physical ability or disability. It is past time for these public schools to follow generally accepted standards of fiscal management and audit requirements.

Thank you,

John Neurohr  
Valencia, PA
