Charter schools are so important. Every child is unique and Public brick and mortar schools are not always the ideal option for each child. You cannot put each student in the same box as if they are all made from the same mold.

Changes in regulations for charter schools should be legislated by the elected PA assembly which represents the citizens and parents of PA who are directly communicating with their constituents about concerns and issues. These regulations should NOT be changed by the governor and dept of education in PA whom are so removed from what parents and children need in reference to thier education.

Why can't the governor just keep out of this? This intervention is clearly political on his part and he is cow towing to the teachers' unions. Period. He doesn't care about the quality education that all of our children deserve.
