Regulation No. 7-579 (#3359)  
Environmental Quality Board  
Control of VOC Emissions from Conventional  
Oil and Natural Gas Sources

On October 13, 2022, the Independent Regulatory Review Commission (Commission) received this regulation from the Environmental Quality Board (Board). This rulemaking amends 25 Pa. Code Chapter 129 by adding Sections 129.131-129.140. Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

This final-omitted rulemaking adopts reasonably available control technology (RACT) requirements and RACT emission limitations for conventional oil and natural gas sources of volatile organic compound emissions.

We have determined this regulation is consistent with the statutory authority of the Board (35 P.S. §§ 4005(a)(1) and (8)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

**BY ORDER OF THE COMMISSION:**

This regulation is approved.

  
George D. Bedwick, Chairman
