<p>(6) Type of Rulemaking (check applicable box):</p> <p><input type="checkbox"/> Proposed Regulation  <input checked="" type="checkbox"/> Final Regulation  <input type="checkbox"/> Final Omitted Regulation</p>		<p><input type="checkbox"/> Emergency Certification Regulation:  <input type="checkbox"/> Certification by the Governor  <input type="checkbox"/> Certification by the Attorney General</p>
<p>(7) Briefly explain the regulation in clear and nontechnical language. (100 words or less)</p> <p>This final-form rulemaking updates the Board's existing certified registered nurse practitioner (CRNP) continuing education regulations to add training on three topics of (1) pain management, (2) the identification of addiction, and (3) the practices of prescribing or dispensing of opioids (collectively, "opioid education") consistent with amendments to section 9.1 of the Achieving Better Care by Monitoring All Prescriptions Program (ABC-MAP) Act (35 P.S. § 872.9a) and 20 Pa. C.S. § 8628 (relating to requirement for physician and nurse training relative to organ and tissue donation and recovery). Section 9.1(a) requires prescribers and dispensers to obtain two hours of mandatory education regarding pain management or the identification of addiction, two hours of education in the practices of prescribing or dispensing of opioids within one year of obtaining prescriptive authority, and an additional 2 hours of education in any of the three topics per biennium as a condition of prescriptive authority biennial renewal. For licensees of the State Board of Nursing, this requirement only applies to CRNPs who have prescriptive authority and hold a current Drug Enforcement Administration (DEA) registration number or utilize the DEA registration number of another person or entity who is legally authorized to prescribe controlled substances in any manner.</p> <p>This final-form rulemaking also updates current CRNP prescription requirements for controlled</p>		

substances found in § 21.284b to incorporate by reference the prescribing restrictions on opioid drug products for individuals seeking treatment in an emergency department, urgent care center or in observation status in a hospital under the Safe Emergency Prescribing Act (35 P.S. §§ 873.1-873.9), the act of November 2, 2016 (P.L. 976, No. 122) (Act 122 of 2016), a concomitant law enacted with ABC-MAP, by adding new subsection (e). In addition, this final-form rulemaking adds new § 21.289 to notify CRNPs that in addition to the grounds for discipline in 63 P.S. § 224(a), a violation of the Safe Emergency Prescribing Act subjects a CRNP to discipline.

Finally, this rulemaking updates existing continuing education regulations for registered nurses (RNs), RN Volunteer Licensees (RN Volunteer), CRNPs and clinical nurse specialists (CNSs) to add organ and tissue donation and recovery process (collectively, “organ donation”) education consistent with the amendment in 20 Pa. C.S. § 8628 (Act 90 of 2018) (P.L. 594, No. 90). The amendment requires completion of at least 2 hours of Board-approved continuing education in organ donation one time within 5 years of initial licensure or within 5 years of licensure renewal, whichever occurs first.

The amendments do not include licensed practical nurses in the educational requirements.

(8) State the statutory authority for the regulation. Include specific statutory citation.

Section 2.1(k) of the Professional Nursing Law (RN Law) (63 P.S. § 212.1(k)) sets forth the Board’s general rulemaking authority. Under section 9.1 of the Achieving Better Care by Monitoring All Prescriptions Program (ABC-MAP) Act (35 P.S. § 872.9a) and 20 Pa. C.S. § 8628 (relating to requirement for physician and nurse training relative to organ and tissue donation and recovery), the Board is required to implement the mandatory education requirements. Additionally, violations of the Safe Emergency Prescribing Act (35 P.S. §§ 873.1-873.9), the act of November 2, 2016 (P.L. 976, No. 122) (Act 122 of 2016), may subject CRNPs to discipline.

(9) Is the regulation mandated by any federal or state law or court order, or federal regulation? Are there any relevant state or federal court decisions? If yes, cite the specific law, case or regulation as well as, any deadlines for action.

Yes, section 9.1 of the ABC-MAP and 20 Pa. C.S. § 8628 requires the Board to implement the mandatory education requirements for licensees and certificate holders of the Board.

(10) State why the regulation is needed. Explain the compelling public interest that justifies the regulation. Describe who will benefit from the regulation. Quantify the benefits as completely as possible and approximate the number of people who will benefit.

In 2016, the Legislature amended the ABC-MAP, including the requirement imposed by section 9.1(a) of the act of November 2, 2016 (P.L. 980, No. 124) (Act 124 of 2016) on all prescribers and dispensers who hold either a DEA registration or use the DEA number of another to obtain 2 hours of mandatory education regarding pain management or the identification of addiction, 2 hours of education in the practices of prescribing or dispensing of opioids (collectively, “opioid education”) within 1 year of obtaining prescriptive authority, and an additional 2 hours of education in any of the three topics per biennium as a condition of prescriptive authority biennial renewal.

In addition, Act 90 of 2018 requires RNs, RN Volunteer Licensees, CRNPs and CNSs to complete at least 2 hours of Board-approved continuing education in organ donation one time within 5 years of

initial licensure or within 5 years of licensure renewal. The final-form amendments update the Board's existing continuing education regulations on both subjects to be consistent with the aforementioned acts.

All RNs, RN Volunteer Licensees, CRNPs and CNSs will benefit by receiving mandatory training about their responsibilities under the Probate Code and all potential organ donors and recipients will benefit from this information. As of June 8, 2023, there are 240,920 RNs of which 2 are Volunteer RNs, 19,004 are CRNPs and 277 are CNSs.

Similarly, as the cases and dangers of opioid addiction are being readily discussed in the media and in healthcare communities, patients of CRNP care will benefit from CRNPs' with prescriptive authority enhanced knowledge of this opioid education. That benefit is already being felt as CRNPs have been verifying that they have completed the opioid education at the time of application and on renewal since January 1, 2017.

Additionally, while the Safe Emergency Prescribing Act only imposes an obligation on the Department of Health to promulgate regulations, because the Board has opioid prescribing regulations, it believes it is in the interest of CRNPs who prescribe these substances to know their obligations under Act 122 of 2016.

(11) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulations.

No. There are no Federal standards on the topic.

(12) How does this regulation compare with those of the other states? How will this affect Pennsylvania's ability to compete with other states?

Of the 12 states within the region, nine require between 1 and 3 hours of education regarding opioid prescription pain management or substance use disorder.

In Maine, in accordance with Me.R. tit. 02-380 Ch. 21 § 5, 3 contact hours of Category 1 credit must be taken every two years on the prescribing of opioid medication as a condition of prescribing opioid medication.

In New York, in accordance with PHL § 3309-A(3), prescribers who have a DEA registration number to prescribe controlled substances as well as medical residents who prescribe controlled substances under a facility DEA registration number, must complete at least 3 hours of course work or training in New York State and federal requirements for prescribing controlled substances, pain management, appropriate prescribing, managing acute pain, palliative medicine, prevention, screening and signs of addiction, and Responses to abuse and addiction every 3 years. Similar to the Pennsylvania requirement, this education must also be taken as within 1 year of registration or as part of a NY-approved CRNP Program.

In Rhode Island, RNs, LPNs, CRNPs and CNSs are required to complete 2 hours of continuing education in substance abuse.

In West Virginia, in accordance with W. Va. Code R. 30-1-7a, licensees must complete three hours of best practice prescribing and drug diversion training.

In New Jersey, in accordance with N.J. Admin Code 13:37-5.3, all licensees must complete at least 1 hour of continuing education on topics concerning opioid prescription, alternatives to opioids, and the risks of abuse. Similar to the Pennsylvania and New York requirements, the initial education may be taken as a part of an approved CRNP Program.

In Connecticut, in accordance with C.G.S.A. § 20-94d, CRNPs and CNSs must complete 1 contact hour of continuing education in substance abuse, including prescribing controlled substances and pain management.

In Delaware, in accordance with Code Del. Regs. § 1900-9.2.1.1.1, RNs and LPNs must complete at least 3 contact hours in the area of substance abuse.

In Massachusetts, in accordance with M.G.L.A. 94C §18(e), like in Pennsylvania, CRNPs who prescribe controlled substances are required, as a prerequisite to obtaining or renewing their licenses, to complete appropriate training in effective pain management, the risks of abuse and addiction associated with opioid medication, identification of patients at risk for substance use disorders, counseling patients about the side effects, addictive nature and proper storage and disposal of prescription medications, appropriate prescription quantities for prescription medications that have an increased risk of abuse, opioid antagonists, overdose prevention treatments and instances in which a patient may be advised on both the use of and ways to access opioid antagonists and overdose prevention treatments.

In New Hampshire, in accordance with N.H. Rev. Stat. Ann §126-A:97, CRNPs who possess DEA registrations must complete 3 hours of continuing education or pass an online examination as a condition of licensure and renewal on opioid prescribing, pain management or substance abuse disorder.

Ohio, Vermont and Maryland do not have a specific opioid education requirement.

Since other surrounding states have similar opioid education requirements, the Board believes this regulation will not place Pennsylvania at a competitive disadvantage by requiring the opioid education. Further, the required opioid education is a statutory requirement for which the Board did not use any discretion.

Regarding the proposed organ donation education, only New York and New Jersey, out of the other states in the region, require organ donation education. New York requires end of life care, which includes a discussion about organ donation. New Jersey's 1 hour course is specifically dedicated to organ donation. Nonetheless, the Board does not believe this regulation will result in a competitive disadvantage as no additional continuing education hours must be taken to satisfy this requirement; it is bundled within the 30 hours required for RNs, CRNPs, CNSs and Volunteer RNs in Section 8.1(c) of the RN Law (63 P.S. § 258.1(c)). Here too, the required organ donation education is a statutory requirement for which the Board did not use any discretion. Both licensees and the public they treat will benefit from this additional education

(13) Will the regulation affect any other regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

No. The regulation does not affect any other regulations of the agency or other state agencies. However, there are additional boards that will be promulgating similar regulations.

(14) Describe the communications with and solicitation of input from the public, any advisory council/group, small businesses and groups representing small businesses in the development and drafting of the regulation. List the specific persons and/or groups who were involved. (“Small business” is defined in Section 3 of the Regulatory Review Act, Act 76 of 2012.)

The Board discusses its regulatory proposals at regularly scheduled public meetings of the Board. Representatives of the professional associations representing the regulated community routinely attend those meetings.

Beginning in February 2021 and continuing through March, 2023, representatives from the Department of Health’s Division of Nutrition and Physical Activity, Bureau of Health Promotion & Risk Reduction, Center for Organ Recovery and Education (CORE), Donate Life PA (Donate PA) and Gift of Life Donor Program (Gift of Life), organ procurement organizations (OPOs) designated for the region by the United States Secretary of Health and Human Services, and Counsel for the State Board of Medicine, State Board of Osteopathic Medicine and State Board of Nursing formed a workgroup to discuss implementation of Act 90 of 2018 and the development of the required curriculum by the OPOs. The OPOs have advised that the curriculum is now available for providers.

The Board discussed this regulation or information contained in this regulation at its meetings on September 1 and October 21, 2021; March 22 and June 10, 2022 and March 6, 2023. The Board authorized sending the regulation for pre-draft comment on October 21, 2021. The Board mailed it to approximately 72 stakeholder groups and individuals who indicated an interest in the Board’s regulatory agenda on October 22, 2021. A list of stakeholders is attached as Attachment A. The Board received no comments to the exposure draft. The Board adopted the Annex in proposed form on June 10, 2022, and adopted a revised Annex containing the six mandatory modules and a reference to the Safe Emergency Prescribing Act (35 P.S. §§ 873.1-873.9) on March 6, 2023.

Ultimately, the proposal was published in the *Pennsylvania Bulletin* on September 16, 2023, for 30 days of public comment. The Board received no comments from the public, nor did the standing Committees of the House and Senate comment. The Independent Regulatory Review Commission sent a letter dated November 15, 2023, indicating that they had no objections, comments or recommendations to offer on the proposed rulemaking. On December 11, 2023, the Board met and voted to move forward and promulgate the final-form rulemaking. Representatives of the multiple nursing associations and the public were present during that meeting. The amendments made in the final-form rulemaking do not enlarge the original purpose of the proposed rulemaking published at 53 Pa.B. 5776.

(15) Identify the types and number of persons, businesses, small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012) and organizations which will be affected by the regulation. How are they affected?

Except for LPNs and LDNs, all other licensees of the Board must comply with the regulation, including those that are, or work for, small businesses. As of June 8, 2023, there are 240,920 RNs of which 2 are Volunteer RNs, 19,004 are CRNPs and 277 are CNSs. The impact of the regulation on these licensees is minimal, because the regulations do not increase the number of continuing education hours that must be completed per biennium, just a portion of the course content.

In addition, since January 1, 2017, CRNPs with prescriptive authority have been required to verify completion of the 2 hours of education in any of the three ABC-MAP topics per biennium as a condition

of prescriptive authority biennial renewal. Although it is rare that the CRNP's nursing education program does not verify at the time of application that the opioid education has been provided, when a prescriptive authority is issued without a verification of completion, the Board sends a letter to the CRNP reminding the CRNP that the education must be completed and the verification submitted within 1 year from issuance of the prescriptive authority and that failure to do so may result in disciplinary action. Unlike the opioid education, there was not an approved curriculum for continuing education in organ donation. The OPOs have advised that the curriculum is now available for providers.

According to the Pennsylvania Department of Labor and Industry in 2024, nurses provide their services for a variety of private and public sector employers. The majority of RNs work in general medical & surgical hospitals (approximately 68 %) while a minority work in home health care services (approximately 10%), including physician offices (approximately 9%), outpatient care centers (approximately 7%) and nursing care facilities (skilled nursing facilities) (approximately 6%).

The majority of CRNPs work for offices of physicians (approximately 60 %) while a minority work for general medical and surgical hospitals (approximately 20%), and outpatient care centers (approximately 10%). Others work in home health care services (approximately 5 %) and are self-employed workers (approximately 3%). The majority of CNSs work for general medical and surgical hospitals (approximately 69%) while a minority work in other healthcare services, including home healthcare (approximately 10%), physician' offices (approximately 9%), outpatient care centers (approximately 7 %) and nursing care facilities (skilled nursing facilities) (approximately 6 %).

According to the Small Business Administration (SBA), there are approximately 1,082,000 small businesses in Pennsylvania, which is 99.6% of all Pennsylvania businesses. Of the 1,082,000 small businesses, 225,401 are small employers (those with fewer than 500 employees) and the remaining 872,647 are non-employers. Thus, the vast majority of businesses in Pennsylvania are considered small businesses.

For the business entities listed above, small businesses are defined in Section 3 of Act 76 of 2012, which provides that a small business is defined by the U.S. Small Business Administration's (SBA) Small Business Size Regulations under 13 CFR Ch. 1 Part 121. Specifically, the SBA has established these size standards at 13 CFR 121.201 for types of businesses under the North American Industry Classification System (NAICS).

Small businesses are defined in Section 3 of the Regulatory Review Act, (71 P.S. § 745.3) which provides that a small business is defined by the SBA's Small Business Size Regulations under 13 CFR Ch. 1 Part 121. These size standards have been established for types of businesses under the North American Industry Classification System (NAICS). In applying the NAICS standards to the types of businesses where licensees may work, for medical and surgical hospitals (#622110), the small business threshold is \$47.0 million or less in average annual receipts. Nursing care facilities (#623110) have a small business threshold of \$34 million or less in average annual receipts. Outpatient care centers (#621498) have a small business threshold at \$25.5 million or less. For home health care services (#621610), the small business threshold is \$19.0 million or less. For offices of physicians (#621111), the small business threshold would be \$13.0 million or less.

Many of the hospitals and health systems in Pennsylvania would not be considered small businesses under these thresholds. However, the Board does not collect information on the size of the businesses where its licensees are employed. For purposes of determining the economic impact on small businesses, the Board assumes that a large number of its licensees either are owners of, or work for, small

businesses as that term is defined by the SBA and Pennsylvania's Regulatory Review Act.

(16) List the persons, groups or entities, including small businesses, that will be required to comply with the regulation. Approximate the number that will be required to comply.

Except for LPNs and LDNs, all other licensees of the Board must comply with the regulation, including those that are, or work for, small businesses. As of March 20, 2024, there are 244,517 RNs of which 20,557 are CRNPs and 286 are CNSs; 15,411 CRNPs hold prescriptive authority. The impact of the regulation on these licensees is minimal because the regulations do not increase the number of continuing education hours that must be completed per biennium, just a portion of the course content.

In addition, since January 1, 2017, CRNPs with prescriptive authority have been required to verify completion of the two hours of education in any of the three topics per biennium as a condition of prescriptive authority biennial renewal. Although it is rare that the CRNP's nursing education program does not verify at the time of application that the opioid education has been provided, when a prescriptive authority is issued without a verification of completion, the Board sends a letter to the CRNP reminding the CRNP that the education must be completed and the verification submitted within 1 year from issuance of the prescriptive authority and that failure to do so may result in disciplinary action. Unlike the opioid education, there was not an approved curriculum for continuing education in organ donation. Unlike the opioid education, there was not an approved curriculum for continuing education in organ donation. The OPOs have advised that the curriculum is now available for providers.

(17) Identify the financial, economic and social impact of the regulation on individuals, small businesses, businesses and labor communities and other public and private organizations. Evaluate the benefits expected as a result of the regulation.

The Board does not anticipate significant fiscal impact or paperwork requirements relating to the rulemaking. Because RNs, including RN Volunteer licensees, CRNPs, and CNSs are already required to complete mandatory continuing education, and the additional hours for opioid related education and organ donation are incorporated in the existing requirement, there would be no increased burden. Also, because licensees and certificate holders are already required to maintain evidence to support their completion of the continuing education requirement, there are no additional paperwork requirements imposed on licensee and certificate holders. There is no fiscal impact or paperwork requirements associated with the Safe Emergency Prescribing Act. The regulation benefits all licensee and certificate holders, by requiring additional education in the aforementioned areas which in turn will benefit Pennsylvania patients.

(18) Explain how the benefits of the regulation outweigh any cost and adverse effects.

Education on pain management, the identification of addiction and the practices of prescribing and dispensing of opioids as well as organ donation benefits both the regulated community and patients of these caregivers. The regulation does not impose any increased costs, as the number of continuing education hours that must be completed by licensees per biennium is not being increased, and there are no adverse effects.

(19) Provide a specific estimate of the costs and/or savings to the **regulated community** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

There are no additional costs associated with RNs, RN-Volunteer licensees, CRNPs and CNSs' compliance with the organ donation education as it does not increase the total number of hours (30) that must be obtained by these licensees/certificate holders as a condition of biennial renewal, just the distribution of those hours.

Similarly, there are no additional costs associated with the addition of the opioid education as the initial education is routinely incorporated within a CRNP advanced pharmacology course and the continuing education credits, as explained above, are included in the total number of hours required for licensure renewal. Additionally, there is no significant fiscal impact or paperwork requirements associated with the Safe Emergency Prescribing Act.

(20) Provide a specific estimate of the costs and/or savings to the **local governments** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

There are no costs or savings to local governments associated with compliance with the rulemaking.

(21) Provide a specific estimate of the costs and/or savings to the **state government** associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required. Explain how the dollar estimates were derived.

As with all other continuing education, there are costs incurred for auditing, verifying and prosecuting cases for failure to complete the required continuing education, however, the overhead cost involved in these activities was considered when the Board amended its fee regulations that went into effect in 2019. There are no additional costs directly associated with implementing this regulation as the addition of the opioid and organ donation continuing education does not increase the total number of hours that must be obtained by these licensees/certificate holders, just the distribution of those hours. Further, the initial opioid education is contained within the CRNP education curriculum in the advanced pharmacology course. There are no significant fiscal impact or paperwork requirements associated with the Safe Emergency Prescribing Act.

(22) For each of the groups and entities identified in items (19)-(21) above, submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.

There are no additional legal, accounting or consulting procedures or additional reporting, recordkeeping or other paperwork requirements required of the regulated community. RNs, RN Volunteer licensees, CRNPs and CNSs are currently required to keep records of their continuing education for submission to the Board upon audit. On renewal, they will continue to check off whether they completed the required education and minimum total. The addition of the opioid and organ donation education does not increase the total number of hours that must be obtained by these licensees/certificate holders, just the distribution of those hours.

(22a) Are forms required for implementation of the regulation?

Yes, current forms are being modified to include the new education topics.

(22b) If forms are required for implementation of the regulation, **attach copies of the forms here**. If your agency uses electronic forms, provide links to each form or a detailed description of the information required to be reported. **Failure to attach forms, provide links, or provide a detailed description of the information to be reported will constitute a faulty delivery of the regulation.**

See the renewal applications for RNs, RN Volunteer licensees, CRNPs and CNSs attached hereto as Attachment B.

(23) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

	<b>Current FY FY 23-24</b>	<b>FY +1 FY 24-25</b>	<b>FY +2 FY 25-26</b>	<b>FY +3 FY 26-27</b>	<b>FY +4 FY 27-28</b>	<b>FY +5 FY 28-29</b>

<b>Nursing</b>				
(24) For any regulation that may have an adverse impact on small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012), provide an economic impact statement that includes the following:				
<ul style="list-style-type: none"> <li>(a) An identification and estimate of the number of small businesses subject to the regulation.</li> <li>(b) The projected reporting, recordkeeping and other administrative costs required for compliance with the regulation, including the type of professional skills necessary for preparation of the report or record.</li> <li>(c) A statement of probable effect on impacted small businesses.</li> <li>(d) A description of any less intrusive or less costly alternative methods of achieving the purpose of the final-form regulation.</li> </ul>				
<p>The regulation has no adverse impact on small business. RNs, RN Volunteer licensees, CRNPs and CNSs are currently required to complete continuing education and maintain proof of completion in the event of an audit. Employers are not required to pay the costs associated with their employee's compliance with the continuing education requirement.</p> <p>All RNs, RN Volunteer Licensees, CRNPs and CNSs will benefit by receiving mandatory training about their responsibilities under the Probate Code, and all potential organ donors and recipients will benefit from this information. Similarly, as the cases and dangers of opioid addiction are being readily discussed in the media and in healthcare communities, patients of CRNP care will benefit from CRNPs' with prescriptive authority enhanced knowledge of this opioid education.</p>				
(25) List any special provisions which have been developed to meet the particular needs of affected groups or persons including, but not limited to, minorities, the elderly, small businesses, and farmers.				
<p>The Board has identified no special groups that needed special provisions. ABC-MAP and the Probate Code applies equally to all mandated licensees and certificate holders.</p>				
(26) Include a description of any alternative regulatory provisions which have been considered and rejected and a statement that the least burdensome acceptable alternative has been selected.				
<p>No alternative regulatory provisions have been considered as the additional continuing education content added by these regulations is mandated by the statutes. Further, the Board believes these regulations provide the least burdensome means of complying with amendments to ABC-MAP and the Probate Code.</p>				
(27) In conducting a regulatory flexibility analysis, explain whether regulatory methods were considered that will minimize any adverse impact on small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012), including:				
<ul style="list-style-type: none"> <li>a) The establishment of less stringent compliance or reporting requirements for small businesses;</li> <li>b) The establishment of less stringent schedules or deadlines for compliance or reporting requirements for small businesses;</li> <li>c) The consolidation or simplification of compliance or reporting requirements for small businesses;</li> <li>d) The establishment of performance standards for small businesses to replace design or operational</li> </ul>				

- standards required in the regulation; and
- e) The exemption of small businesses from all or any part of the requirements contained in the regulation.

Because there is minimal anticipated adverse impact on small business, a regulatory flexibility analysis was not conducted. No less stringent compliance or reporting requirements, or less stringent schedules or deadlines for compliance for small businesses, would be consistent with the goals of ABC-MAP and the Probate Code. There are no design or operational standards in the regulation. Exempting small businesses or employees of small businesses from any of the requirements contained in the regulation would not be consistent with the intent of ABC-MAP and the Probate Code.

(28) If data is the basis for this regulation, please provide a description of the data, explain in detail how the data was obtained, and how it meets the acceptability standard for empirical, replicable and testable data that is supported by documentation, statistics, reports, studies or research. Please submit data or supporting materials with the regulatory package. If the material exceeds 50 pages, please provide it in a searchable electronic format or provide a list of citations and internet links that, where possible, can be accessed in a searchable format in lieu of the actual material. If other data was considered but not used, please explain why that data was determined not to be acceptable.

No data is the basis for this regulation.

(29) Include a schedule for review of the regulation including:

- A. The length of the public comment period: 30 days.
- B. The date or dates on which any public meetings or hearings will be held:  
The Board considers its regulatory proposals at regularly scheduled public meetings, a schedule of which is included in item (30) below.
- C. The expected date of delivery of the final-form regulation: Summer of 2025
- D. The expected effective date of the final-form regulation: Upon publication of the final-form rulemaking in the *Pennsylvania Bulletin*, except that organ donation provisions are effective May 1, 2026.
- E. The expected date by which compliance with the final-form regulation will be required: Upon publication of the final-form rulemaking in the *Pennsylvania Bulletin*, except that organ donation provisions compliance date will begin May 1, 2026.
- F. The expected date by which required permits, licenses or other approvals must be obtained: N/A

(30) Describe the plan developed for evaluating the continuing effectiveness of the regulations after its implementation.

The Board continually reviews the efficacy of its regulations, as part of its annual review process under Executive Order 1996-1. The Board continually reviews the efficacy of its regulations, as part of its annual review process under Executive Order 1996-1. The Board reviews its regulatory proposals at regularly scheduled public meetings. The Board will meet on the following dates in 2025: July 16, September 4, October 15, and December 4, 2025.

The State Board of Nursing (Board) amends §§ 21.131, 21.133, 21.134, 21.283, 21.284b, 21.289, 21.331, 21.605, and 21.822 to read as set forth in Annex A.

*Effective date*

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin*, except that provisions relating to required training relative to organ and tissue donation and recovery will be effective on May 1, 2026.

*Statutory authority*

Section 2.1(k) of the Professional Nursing Law (RN Law) (63 P.S. § 212.1(k)) sets forth the Board's general rulemaking authority. Under section 9.1 of the Achieving Better Care by Monitoring All Prescriptions Program (ABC-MAP) Act (35 P.S. § 872.9a) and 20 Pa. C.S. § 8628 (relating to requirement for physician and nurse training relative to organ and tissue donation and recovery), the Board is required to implement the mandatory education requirements. Additionally, violations of the Safe Emergency Prescribing Act (35 P.S. §§ 873.1-873.9), the act of November 2, 2016 (P.L. 976, No. 122) (Act 122 of 2016), may subject CRNPs to discipline.

*Background and purpose*

In 2016, the Legislature amended the ABC-MAP (35 P.S. §§ 872.1-872.40), including the requirement imposed by section 9.1(a) of the act of November 2, 2016 (P.L. 980, No. 124) (Act 124 of 2016) on all prescribers and dispensers to obtain 2 hours of mandatory education regarding pain management or the identification of addiction, 2 hours of education in the practices of prescribing or dispensing of opioids (collectively, "opioid education") within 1 year of obtaining prescriptive authority, and an additional 2 hours of education in any of the three topics per biennium as a condition of prescriptive authority biennial renewal. At the same time, the Legislature enacted the Safe Emergency Prescribing Act (35 P.S. §§ 873.1-873.9), the act of November 2, 2016 (P.L. 976, No. 122) (Act 122 of 2016), which imposed restrictions on certified registered nurse practitioners' (CRNPs) prescription of opioid drug products to individuals seeking treatment in an emergency department, urgent care center or in observation status in a hospital. Violation of the Safe Emergency Prescribing Act subjects CRNPs to discipline.

The Board implemented Act 124 of 2016, and since January 1, 2017, the Board has required CRNPs with prescriptive authority to verify completion of the 2 hours of education in any of the three topics per biennium as a condition of prescriptive authority biennial renewal. Generally, CRNP nursing education programs verify completion of the opioid education at the time of application. If a prescriptive authority is issued without a verification of completion, the Board sends a letter to the CRNP reminding the CRNP that the education must be completed, and the verification submitted within 1 year from issuance of the prescriptive authority and that failure to do so may result in disciplinary action. Shortly after enactment, representatives of the Bureau of Professional and Occupational Affairs (Bureau), on behalf of the impacted licensing Boards, met with representatives of the Department of Health (DOH) to discuss curricula required by Act 124 of 2016. Because the opioid education required was readily available from multiple Board-

approved providers and is incorporated into many CRNP nursing education program's advanced pharmacology courses, a decision was made not to mandate a specific curriculum like what is required for organ and tissue donation and recovery process (collectively, "organ donation"), discussed as follows. Nonetheless, for guidance, DOH has posted seven modules that fit within the mandated education on its webpage at:

[www.health.pa.gov/topics/programs/PDMP/Pages/education.aspx](http://www.health.pa.gov/topics/programs/PDMP/Pages/education.aspx).

In addition, the Legislature amended 20 Pa.C.S. §§ 8610-8632 (relating to express anatomical gifts), including the requirement imposed in 20 Pa.C.S. § 8628 (Act 90 of 2018) (P.L. 594, No. 90) that registered nurses (RNs) complete at least 2 hours of Board-approved continuing education in organ donation one time within 5 years of initial licensure or within five years of licensure renewal, whichever occurs first. In drafting organ donation regulations, the Board has worked with the DOH and other agencies regarding the development of an approved curriculum for continuing education in organ donation. Representatives from the Department of Health's Division of Nutrition and Physical Activity, Bureau of Health Promotion & Risk Reduction, Center for Organ Recovery and Education (CORE), Donate Life PA (Donate PA) and Gift of Life Donor Program (Gift of Life), organ procurement organizations (OPOs) designated for the region by the United States Secretary of Health and Human Services, and Counsel for the State Board of Medicine, State Board of Osteopathic Medicine and State Board of Nursing formed a workgroup to discuss implementation of Act 90 of 2018 and the development of the required curriculum by the OPOs. The OPOs have advised that the curriculum is now available for providers.

The amendments are required to update the Board's existing regulations on both subjects to be consistent with the aforementioned acts.

#### *Summary and Response to Comments*

Notice of the proposed rulemaking was published at 53 Pa.B. 5776 (September 16, 2023). Publication was followed by a 30-day public comment period during which the Board received no public comments. Additionally, there were no comments received from the Independent Regulatory Review Commission (IRRC) other than to say that they have no objections, comments or recommendations to offer. IRRC further advised that if the final-form rulemaking is delivered without revisions, and the committees do not take any action, it will be deemed approved. The House Professional Licensure Committee (HPLC) and the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC) did not submit comments.

The Board has amended the organ donation regulations relating to the effective date of these provisions. Instead of making the effective date of the organ donation requirement the date of publication of the final-form rulemaking in the Pennsylvania Bulletin, the Board makes the effective date May 1, 2026. Part of the reason for choosing May 1, 2026, is that the Bureau wants to roll out the Board's organ donation regulations at the same time as the organ donation regulations for the Medical and Osteopathic Medicine Boards. Additionally, the Bureau is transitioning to a new online application platform and the Board and Bureau wish to include the implementation of the organ donation requirement into the new platform, which is anticipated to be completed by May 1, 2026. In updating the effective date of the organ donation regulations, the Board made minor, non-substantive amendments to clarify the timing of the effective date.

### *Fiscal Impact and Paperwork Requirements*

The Board does not anticipate any significant fiscal impact or paperwork requirements relating to these amendments. RNs, CRNPs, CNSs and RN-volunteer license holders are already required to complete mandatory continuing education, and as these hours are incorporated in the existing requirement, there would be no increased burden. Also, like with other continuing education, aside from the mandatory child abuse education, licensees and certificate holders are required to keep copies of their continuing education certificates in the event of an audit.

There are no significant fiscal impact or paperwork requirements associated with the Safe Emergency Prescribing Act.

### *Sunset Date*

The Board continuously monitors the effectiveness of its regulations on a fiscal year and biennial basis. Therefore, no sunset date has been assigned.

### *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on August 30, 2023, the Board submitted a copy of the notice of proposed rulemaking, published at 53 Pa.B. 5776 (September 16, 2023) and a copy of a Regulatory Analysis form to IRRC and to the Chairpersons of the SCP/PLC and the HPLC for review and comment. A copy of this material is available to the public upon request.

Under section 5(c) of the Regulatory Review Act (71 P.S. § 745.5(c)), the Board shall submit to IRRC, the HPLC and the SCP/PLC copies of comments received as well as other documents when requested. The Board did not receive any comments from the public, IRRC, the HPLC and the SCP/PLC.

Under section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)), on July 28, 2025, the Board delivered this final-form rulemaking to IRRC, the HPLC and the SCP/PLC. Under section 5.1(j.2) of the Regulation Review Act, the final-form rulemaking was deemed approved by the HPLC and the SCP/PLC on \_\_\_\_\_, 2025. Under section 5.1(e) of the Regulatory Review Act, IRRC met on \_\_\_\_\_, 2025 and approved the final-form rulemaking.

### *Additional Information*

Additional information may be obtained by writing to Cynthia Miller, Board Administrator, State Board of Nursing, P.O. Box 2649, Harrisburg, PA 17105-2649, [ST-NURSE@pa.gov](mailto:ST-NURSE@pa.gov).

### *Findings*

The State Board of Nursing finds that:

(1) Public notice of proposed rulemaking was given under sections 201 and 202 of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202), referred to as the Commonwealth Documents Law, and the regulations promulgated under those sections at 1 Pa. Code §§ 7.1 and 7.2 (relating to notice of proposed rulemaking required; and adoption of regulations).

(2) A public comment period was provided as required by law and no comments were received.

(3) The amendments to this final-form rulemaking do not enlarge the original purpose of the proposed rulemaking published at 53 Pa.B. 5776.

(4) This final-form rulemaking is necessary and appropriate for the administration of the relevant provisions of the Child Protective Services Law (CPSL).

*Order*

The Board, acting under its authorizing statute, orders that:

(a) The regulations of the Board at 49 Pa. Code Chapter 21, are amended by amending §§ 21.131, 21.133, 21.134, 21.283, 21.284b, 21.289, 21.331, 21.605, and 21.822 to read as set forth in Annex A, with ellipses referring to the existing text of the regulations.

(b) The Board shall submit a copy of this final-form rulemaking to the Office of the Attorney General and the Office of General Counsel for approval as required by law.

(c) The Board shall submit this final-form rulemaking to IRRC, the HPLC and the SCP/PLC as required by law.

(d) The Board shall certify this final-form rulemaking and shall deposit it with the Legislative Reference Bureau as required by law.

(e) This final-form rulemaking shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

Colby P. Hunsberger, DNP, RN, CNEcl  
Board Chair

**ANNEX A****TITLE 49. PROFESSIONAL AND VOCATIONAL STANDARDS****PART I. DEPARTMENT OF STATE****Subpart A. PROFESSIONAL AND OCCUPATIONAL AFFAIRS****CHAPTER 21. STATE BOARD OF NURSING****Subchapter A. REGISTERED NURSES**

\* \* \* \* \*

**CONTINUING EDUCATION****§ 21.131. Continuing education.**

(a) *Requirement of continuing education.* A registered nurse seeking licensure renewal shall complete 30 hours of continuing education approved by the Board during the biennial renewal period immediately preceding the application for renewal in accordance with section 12.1 of the act (63 P.S. 222) and this subchapter. At least 2 of the 30 hours shall be completed in approved continuing education in child abuse recognition and reporting requirements in accordance with § 21.508(b) (relating to child abuse recognition and reporting—mandatory training requirement). The Board will not renew a license of a registered nurse who fails to verify compliance with the continuing education requirement. A registered nurse whose license is not renewed by the expiration of the biennial renewal period may not engage in the practice of professional nursing until the continuing education requirements are satisfied and the license has been renewed, reinstated or reactivated.

*(Editor's Note: The blanks in subsection (a.1) refer to the date of publication of the final form rulemaking in the Pennsylvania Bulletin. Subsection (a.1)(1) expires 5 years from the effective date).*

**(a.1) Additional continuing education requirement.**

**(1) INITIAL LICENSURE PRIOR TO MAY 1, 2026. Effective \_\_\_\_\_ a registered nurse shall complete** EFFECTIVE MAY 1, 2026, A REGISTERED NURSE WHO OBTAINED A LICENSE PRIOR TO MAY 1, 2026, SHALL VERIFY COMPLETION OF

at least 2 of the 30 hours in Board-approved continuing education in organ and tissue donation and recovery process in accordance with § 21.133(a.1) (relating to continuing education content) from the sources identified in § 21.134(11) (relating to continuing education sources) one time within 5 years of licensure renewal.

**(2) INITIAL LICENSURE ON OR AFTER MAY 1, 2026.** Licensees who obtain a license on or after ~~shall verify completion of the 2 hours~~ A REGISTERED NURSE WHO OBTAINS A LICENSE ON OR AFTER MAY 1, 2026, SHALL VERIFY COMPLETION OF AT LEAST 2 OF THE 30 HOURS IN BOARD-APPROVED CONTINUING EDUCATION IN ORGAN AND TISSUE DONATION AND RECOVERY PROCESS IN ACCORDANCE WITH § 21.133(A.1) FROM THE SOURCES IDENTIFIED IN § 21.134(11) one time within 5 years of initial licensure.

**(3) REACTIVATION ON OR AFTER MAY 1, 2026.** Licensees who reactivate expired or inactive licenses on or after ~~shall verify completion of the 2 hours~~ A REGISTERED NURSE WHO REACTIVATES AN EXPIRED OR INACTIVE LICENSE ON OR AFTER MAY 1, 2026, SHALL VERIFY COMPLETION OF AT LEAST 2 OF THE 30 HOURS IN BOARD-APPROVED CONTINUING EDUCATION IN ORGAN AND TISSUE DONATION AND RECOVERY PROCESS IN ACCORDANCE WITH § 21.133(A.1) FROM THE SOURCES IDENTIFIED IN § 21.134(11) one time within 5 years of reactivation.

**(b) Exception.** An applicant applying for initial licensure in this Commonwealth will not be required to meet the continuing education requirement on the first renewal immediately following licensure, except for the mandatory continuing education in child abuse recognition and reporting required under § 21.508(b).

\* \* \* \* \*

**§ 21.133. Continuing education content.**

(a) Continuing education must be relevant to patient care or professional nursing in a general or specialty area and enhance the knowledge and application of the physical, social, biological and behavioral sciences.

**(a.1) The continuing education required to satisfy the organ and tissue donation and recovery process in § 21.131(a.1)(relating to continuing education) consists of the following Board-approved curriculum, which is posted on the Board's website:**

- (1) Overview of the Organ Donation & Transplantation System.**
- (2) Tissue Donation Process.**
- (3) Organ Donation Process.**
- (4) Determining Death and Family Communication.**
- (5) Caring for Families.**
- (6) Organ Donor Management.**

\* \* \* \* \*

(b) The Board may, for any given biennial license period and with adequate notice to registered nurses, required that up to 4 hours of continuing education be completed in designated topics.

(c) Courses in areas related to the practice of professional nursing such as the following are:

\* \* \* \* \*

- (6) Pharmacology.
- (7) Organ and tissue donation and recovery.**

(d) Courses in areas impacting the practice of professional nursing, such as nursing administration, management, education, and diagnostic and procedural coding are acceptable.

**§ 21.134. Continuing education sources.**

- (a) The following continuing education activities that meet the requirements of § 21.133 (relating to continuing education content) for registered nurses are approved:

\* \* \* \* \*

(10) Activities approved by a Board in another jurisdiction.

(11) Activities sponsored by an organ procurement organization as defined in 20 Pa.C.S. § 8601 (relating to definitions).

- (b) The Board may approve other sources of continuing education on a case-by-case basis after the provider or registered nurse seeking approval submits the following:

\* \* \* \* \*

**Subchapter C. CERTIFIED REGISTERED NURSE PRACTITIONERS**

**CRNP PRACTICE**

**§ 21.283. Authority and qualification for prescribing, dispensing and ordering drugs.**

\* \* \* \* \*

- (b) To obtain prescriptive authority approval, a CRNP shall:

\* \* \* \* \*

(3) Pay the fee set forth in § 21.253 (relating to fees).

(4) Complete at least 2 hours of Board-approved education in pain management or the identification of addiction and 2 hours of Board-approved education in the practices of prescribing or dispensing of opioids within 1 year of obtaining prescriptive authority approval. The following apply:

(i) The education may be taken as part of a Board-approved CRNP Program posted on the Board's website under § 21.362(d) (relating to annual

report and compliance reviews; list of approved programs), a stand-alone course from a Board-approved CRNP advanced pharmacology course provider authorized by subsection (b)(1) or a continuing education course from a CRNP continuing education provider listed in § 21.334(a) (relating to sources of continuing education.)

(ii) This requirement only applies to CRNPs who hold a current Drug Enforcement Administration (DEA) registration or utilize the DEA registration number of another person or entity, as permitted by law, to prescribe controlled substances in any manner.

(c) A CRNP who has prescriptive authority shall complete [at least 16 hours of Board-approved continuing education in pharmacology in the 2 years prior to the] the continuing education set forth in § 21.331(c)(2) (relating to biennial renewal of certification) as a condition of biennial renewal [date of the certification. The CRNP shall verify completion of the continuing education when submitting a biennial renewal].

**§ 21.284b. Prescribing, administering and dispensing controlled substances.**

\* \* \* \* \*

(d) Compliance with this section will be not treated as compliance with standards of acceptable and prevailing practice as a CRNP when medical circumstances require that the CRNP exceed the requirements of this section.

(e) A CRNP shall comply with the prescribing requirements for opioid drug products for individuals seeking treatment in an emergency department, urgent care center or in observation status in a hospital under the Safe Emergency Prescribing Act, (35 P.S. §§ 873.1-873.9).

\* \* \* \* \*

**§ 21.289. Additional grounds for discipline.**

**In addition to the grounds set forth in section 14(a) of the act (63 P.S. § 224(a)), a CRNP who fails to comply with the Safe Emergency Prescribing Act (35 P.S. §§ 873.1-873.9) shall be subject to disciplinary action.**

\* \* \* \* \*

**MAINTENANCE OF CERTIFICATION****§ 21.331. Biennial renewal of certification.**

\* \* \* \* \*

(c) As a condition of biennial renewal, a CRNP shall:

- (1) Renew the CRNP's registered nurse license.
- (2) Verify completion of a minimum of 30 hours of Board-approved continuing education in the 2 years prior to renewal, including at least 2 hours of approved training in child abuse recognition and reporting in accordance with § 21.508(b) (relating to child abuse recognition and reporting—mandatory training requirement). As a condition of biennial renewal of prescriptive authority approval, in the 2 years prior to the biennial renewal date of the certification, a CRNP shall [complete a minimum of] also verify completion of:
  - (i) At least 16 [of the 30] hours of Board-approved continuing education in pharmacology [in the 2 years prior to renewal].
  - (ii) At least 2 hours of Board-approved continuing education in pain management, the identification of addiction or in the practices of prescribing or dispensing opioids in the 2 years prior to renewal if the licensee is renewing

**a prescriptive authority approval and holds a current Drug Enforcement Administration (DEA) registration or is utilizing the DEA registration of another. If required, this education shall be completed once per renewal regardless of the number of prescriptive authority approvals being renewed.**

- (3) Demonstrate current National certification, if the CRNP was certified by the Board after February 7, 2005.
- (4) Pay the required biennial renewal fee set forth in § 21.253 (relating to fees).
- (5) Verify compliance with section 8.7 of the act (63 P.S. § 218.7) regarding liability coverage.

**(Editor's Note: The blank in paragraph (6) refers to the date of publication of the final form rulemaking in the Pennsylvania Bulletin).**

**(6) Effective MAY 1, 2026, verify completion of at least 2 of the 30 hours in Board-approved continuing education in organ and tissue donation and recovery process in accordance with § 21.131(a.1) (relating to continuing education) within 5 years of certification renewal. Certificate holders who obtain certification on or after the effective date shall verify completion of the 2 hours within 5 years of initial certification.**

- (d) Any written communication with the Board must be typed or printed and include the CRNP's full name, including former names, the current address and certification number.

\* \* \* \* \*

## **Subchapter F. VOLUNTEER LICENSES**

\* \* \* \* \*

### **§ 21.605. Biennial renewal.**

- (a) A volunteer license shall be renewed biennially on forms provided by the Board. In

accordance with section 6(c) of the Volunteer Health Services Act 35 P.S. § 449.46(c), a volunteer license holder shall comply with the applicable continuing education requirements imposed by the Board, including at least 2 hours of training in approved child abuse recognition and reporting in accordance with § 21.508(b) (relating to child abuse recognition and reporting—mandatory training requirement)[.], **and if the licensee is renewing a prescriptive authority approval and holds a current Drug Enforcement Administration (DEA) registration or is utilizing the DEA registration of another, at least 2 hours of Board-approved continuing education in pain management, the identification of addiction or in the practices of prescribing or dispensing opioids, in the 2 years prior to renewal. If required, this education shall be completed once per renewal regardless of the number of prescriptive authority approvals being renewed.**

The applicant shall be exempt from payment of the biennial renewal fee of § 21.5, § 21.147 or § 21.253 (relating to fees), as applicable.

**(Editor's Note: The blank in subsection (b) refers to the date of publication of the final form rulemaking in the Pennsylvania Bulletin).**

**(b) Effective MAY 1, 2026, verify completion of at least 2 of the 30 hours in Board-approved continuing education in organ and tissue donation and recovery process in accordance with § 21.131(a.1) (relating to continuing education) within 5 years of licensure renewal. Licensees who obtain licensure on or after the effective date shall verify completion of the 2 hours within 5 years of initial licensure.**

\* \* \* \* \*

## Subchapter H. CLINICAL NURSE SPECIALISTS

\* \* \* \* \*

### MAINTENANCE OF CERTIFICATION

#### § 21.822. Biennial renewal of certification.

\* \* \* \* \*

(e) The applicant shall remit the required renewal fee in § 21.805 (relating to fees) with the applicant's renewal application forms. Upon approval of the renewal application, the CNS will receive a certification for the current renewal period.

*(Editor's Note: The blank in subsection (f) refers to the date of publication of the final form rulemaking in the Pennsylvania Bulletin).*

**(f) Effective MAY 1, 2026, verify completion of at least 2 of the 30 hours in Board-approved continuing education in organ and tissue donation and recovery process in accordance with § 21.131(a.1) (relating to continuing education) within 5 years of certification renewal. Certificate holders who obtain certification on or after the effective date shall verify completion of the 2 hours within 5 years of initial certification.**

**Subject:** [EXTERNAL]: DELIVERY NOTICE: REGULATION: #16A-5146 (Opioid and Organ Donation Education)  
**Importance:** High

**Please provide a written (email) confirmation of receipt of delivery of the attached rulemaking.**

Please be advised that the State Board of Nursing is delivering the below final rulemaking.

Thank you for your attention to this matter.

- **16A-5146 (Opioid and Organ Donation Education)**

- This final rulemaking updates the State Board of Nursing's existing regulations to require all prescribers and dispensers to obtain mandatory education regarding pain management or the identification of addiction and in the practices of prescribing or dispensing of opioids. This rulemaking also requires registered nurses, including CRNPs, clinical nurse specialists and related volunteer licensees, to complete at least 2 hours of Board-approved continuing education in organ and tissue donation and recovery process one time within 5 years of initial licensure or within five years of licensure renewal, whichever occurs first.
