(9) Is the regulation mandated by any federal or state law or court order, or federal regulation? Are there any relevant state or federal court decisions? If yes, cite the specific law, case or regulation as well as, any deadlines for action.

The provisions of this proposed rulemaking are not the result of any direct mandate by federal or state law, court order or federal regulation. The regulations are in line with the general oversight mandates as prescribed in the Pennsylvania Race Horse Development and Gaming Act of 2004, as amended.

(10) State why the regulation is needed. Explain the compelling public interest that justifies the regulation. Describe who will benefit from the regulation. Quantify the benefits as completely as possible and approximate the number of people who will benefit.

As noted, the regulations are in line with the oversight mandate prescribed to the Pennsylvania Gaming Control Board. Specifically, the direct bet coupon framework, offered under § 603a., ensures that brick-and-mortar casino operations are able to remain competitive compared to online and out-of-state competitors. The interactive gaming progressive framework, offered under § 819a., provides the framework under which interactive gaming operators will be able to offer progressive wagers to players. The edits to table games rules under §§ 633a and 687a ensure that gaming products are able to be offered as intended by manufacturers, and that players are provided competitive gaming products. Finally, the edit under §812a corrects an inconsistency relating to interactive gaming account time out periods.

(11) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulations.

There are no corresponding federal standards for any of these provisions in this rulemaking.

(12) How does this regulation compare with those of the other states? How will this affect Pennsylvania's ability to compete with other states?

This rule making is comparable to the regulatory standards imposed by other states. The regulations governing direct bet coupons ensure that Pennsylvania casinos remain competitive compared to those in neighboring jurisdictions, where casinos already have this ability. The provisions of this rulemaking do not negatively impact competition. Rather the changes are expected to allow Pennsylvania gaming entities to remain competitive compared to their peers.

(13) Will the regulation affect any other regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

This regulation will not affect any other regulations of the PGCB nor any other state agency.

(14) Describe the communications with and solicitation of input from the public, any advisory council/group, small businesses and groups representing small businesses in the development and drafting of the regulation. List the specific persons and/or groups who were involved. ("Small business" is defined in Section 3 of the Regulatory Review Act, Act 76 of 2012.)

No other persons or groups were involved in the development and drafting of the regulation.

(15) Identify the types and number of persons, businesses, small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012) and organizations which will be affected by the regulation. How are they affected?

The Board anticipates that these regulations will affect its licensed operators and manufacturers. Should they wish to engage in the activities covered by the regulation they will be required to abide by the regulation. It is unknown to the Board at this time whether any of these entities would qualify as small businesses as defined in the United States Small Business Administration's Small Business Size Regulations, under 13 C.F.R. Ch. 1 Part 121.

(16) List the persons, groups or entities, including small businesses, that will be required to comply with the regulation. Approximate the number that will be required to comply.

The regulations only affect Pennsylvania's regulated gaming industry--casino licensees, interactive gaming operators, and manufacturers. These include 17 operations brick-and-mortar casino facilities, one casino facility yet to be opened, more than 20 online casino/apps offerings, and approximately 109 manufacturers.

(17) Identify the financial, economic and social impact of the regulation on individuals, small businesses, businesses and labor communities and other public and private organizations. Evaluate the benefits expected as a result of the regulation.

It is not anticipated that this rulemaking will have a negative financial or economic impact on the regulated community. Rather, the express authorization of activities prescribed by Annex A could reasonably provide positive economic growth to both the regulated community and the Commonwealth by means of increased gaming taxes.

(18) Explain how the benefits of the regulation outweigh any cost and adverse effects.

The regulations accomplish four items. First, they authorize brick-and-mortar casinos in Pennsylvania to use promotional products allowed by other neighboring jurisdictions. Authorization in Pennsylvania ensures PA's gaming market remains competitive. Second, the regulations provide for a framework for interactive gaming progressive wagers. These wagers are common in both brick-and-mortar and online gaming. The adoption of the proposed framework ensures all regulated entities are apprised of the minimum standards and expectations. Third, the proposed changes to table games rules and procedures ensure that table games offered in Pennsylvania remain competitive. Fourth, the edit to iGaming time out periods create a more consistent standard for the industry. On the whole, this regulation package increases the ability of the regulated industry to remain competitive with out-of-state competition and provides frameworks and corrections which reasonably can reduce operational administration costs by licensees. It is not anticipated there will be any significant cost or adverse effects to the affected parties

(19) Provide a specific estimate of the costs and/or savings to the **regulated community** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

There is anticipated to be negligible economic impact on the regulated community as a result of this regulation package. To the extent that the regulated community may incur upstart fees if they choose to engage in a direct bet couponing program, the Board cannot speculate as to implementation costs, but does believe that any cost incurred would be surpassed by increased operational revenues resulting from the program. The remaining portions of this proposed rulemaking reflect frameworks and corrections that do not place economic burden upon the regulated community.

(20) Provide a specific estimate of the costs and/or savings to the **local governments** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

This rulemaking will have no fiscal impact on local governments.

(21) Provide a specific estimate of the costs and/or savings to the **state government** associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required. Explain how the dollar estimates were derived.

The Board does not expect that the requirements of this rulemaking will have any fiscal impact on the Board or any other Commonwealth agency. Any work resulting from this proposed rulemaking will be handled by existing Board staff.

(22) For each of the groups and entities identified in items (19)-(21) above, submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.

The rulemaking relating to direct bet coupons places recordkeeping and reporting requirements upon any licensee that would choose to engage in a direct bet coupon promotional program. The main recordkeeping requirement, the Direct Bet Coupon Ledger, serves as an inventory/liability log. This ensures that licensees are controlling the inventory of direct bet coupons and reporting variances or discrepancies. Directly derived from this recordkeeping requirement is the requirement for monthly reporting to the Board the values of coupons issued and redeemed by patrons. All recordkeeping and reporting requirement proposed relative to Direct Bet Coupons are comparable to those required under 58 Pa. Code §603a.20 relative to Match Play Coupons.

With regards to the remaining portions of this rulemaking, there are no significant changes to procedures, reporting, recordkeeping, etc. already required by Board licensees.

(22a) Are forms required for implementation of the regulation?

To the extent that licensees make submissions for review of games, gaming devices, equipment, hardware, or software, they would be expected to comply with existing PGCB procedures and forms.

(22b) If forms are required for implementation of the regulation, **attach copies of the forms here.** If your agency uses electronic forms, provide links to each form or a detailed description of the information required to be reported. **Failure to attach forms, provide links, or provide a detailed description of the information to be reported will constitute a faulty delivery of the regulation.**

The forms used for submissions to the PGCB Gaming Lab and for table games submission are voluminous. They can be found at <https://gamingcontrolboard.pa.gov/licensing/table-games-rules-submission-request-form> and <https://gamingcontrolboard.pa.gov/licensing/gaming-laboratory-operations-forms>. PGCB staff works with licensees and applicants to direct them to the appropriate form for their submissions.

(23) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

	Current FY Year	FY +1 Year	FY +2 Year	FY +3 Year	FY +4 Year	FY +5 Year

(23a) Provide the past three year expenditure history for programs affected by the regulation.

(24) For any regulation that may have an adverse impact on small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012), provide an economic impact statement that includes the following:

- (a) An identification and estimate of the number of small businesses subject to the regulation.

The Board does not believe this rulemaking will affect any small businesses. To the extent that a Board licensee may qualify as a small business and be subject to the proposed rulemaking, it is not anticipated that the regulation will have any adverse impact on any business.

- (b) The projected reporting, recordkeeping and other administrative costs required for compliance with the proposed regulation, including the type of professional skills necessary for preparation of the report or record.

It is not anticipated that there will be any significant reporting, recordkeeping or other administrative costs associated with this regulation that a licensee does not already perform based upon licensure in Pennsylvania or other jurisdictions, or as a matter of industry best practices.

- (c) A statement of probable effect on impacted small businesses.

As stated above, the Board does not believe any of the entities subject to the regulation are small businesses. However, any impact will be limited to those entities wishing to engage in the covered activity, which would not be an adverse impact.

- (d) A description of any less intrusive or less costly alternative methods of achieving the purpose of the proposed regulation.

It is not believed that there is a less intrusive or less costly alternative method available.

(25) List any special provisions which have been developed to meet the particular needs of affected groups or persons including, but not limited to, minorities, the elderly, small businesses, and farmers.

No special provisions have been added.

(26) Include a description of any alternative regulatory provisions which have been considered and rejected and a statement that the least burdensome acceptable alternative has been selected.

No alternative regulatory approaches were considered as this rulemaking, and the regulations therein, reflects the least burdensome means of maintaining regulatory oversight of these activities.

(27) In conducting a regulatory flexibility analysis, explain whether regulatory methods were considered that will minimize any adverse impact on small businesses (as defined in Section 3 of the Regulatory Review Act, Act 76 of 2012), including:

- a) The establishment of less stringent compliance or reporting requirements for small businesses;
- b) The establishment of less stringent schedules or deadlines for compliance or reporting requirements for small businesses;
- c) The consolidation or simplification of compliance or reporting requirements for small businesses;
- d) The establishment of performance standards for small businesses to replace design or operational standards required in the regulation; and
- e) The exemption of small businesses from all or any part of the requirements contained in the regulation.

It is believed there will be no adverse impact on small businesses.

(28) If data is the basis for this regulation, please provide a description of the data, explain in detail how the data was obtained, and how it meets the acceptability standard for empirical, replicable and testable data that is supported by documentation, statistics, reports, studies or research. Please submit data or supporting materials with the regulatory package. If the material exceeds 50 pages, please provide it in a searchable electronic format or provide a list of citations and internet links that, where possible, can be accessed in a searchable format in lieu of the actual material. If other data was considered but not used, please explain why that data was determined not to be acceptable.

There is no data, as defined under section (3) of the Regulatory Review Act (71 P.S. § 745.3), upon which this rulemaking is based.

(29) Include a schedule for review of the regulation including:

- A. The length of the public comment period: **30 days**

FINAL FORM RULEMAKING 125-247

PENNSYLVANIA GAMING CONTROL BOARD

58 PA. CODE CH. 603a, 633a, 687a, 812a, and 819a

Table Game Equipment; Blackjack; DJ Wild Stud Poker; Interactive Gaming Player Accounts; and Interactive Gaming Progressives

The Pennsylvania Gaming Control Board (Board), under authority pursuant to 4 Pa.C.S. §§ 1202(b)(30) (relating to general and specific powers), 13A02 (1)-(2) (relating to table games regulatory authority), and 13B02(a)(3), (6)-(7), (9) (relating to interactive gaming regulatory authority) amends Subpart K. Table Games by adding sections 603a.22 (Direct Bet Coupons; physical characteristics and issuance) and 603a.23 (Direct Bet Coupon Use) and by amending chapters 633a. (Blackjack) and 687a. (DJ Wild Stud Poker), and amends Subpart L. Interactive Gaming by adding chapter 819a (Interactive Gaming Progressives) and by amending section 812a.9.

Purpose of the Final Form Rulemaking

This rulemaking finalizes regulatory language which provides standards for the issuance and use of direct bet coupons, provides standards for interactive gaming progressive wagers, and amends certain provisions in table games rules and interactive gaming player account controls.

Explanation

Under Annex A, Chapter 603a finalizes the addition of sections 603a.22 (Direct Bet Coupons; physical characteristics) and 603a.23 (Direct Bet Coupon Use). These sections provide for the authorization and framework for the issuance and use of Direct Bet Coupons, a promotional product in brick-and-mortar casinos. Direct Bet Coupons operate similarly to Match Play Coupons, authorized under sections 603a.20 and 603a.21, except that Direct Bet Coupons do not require players to at least match the promotional play value with money out of their pockets. Direct Bet Coupons allow Pennsylvania licensees to offer a promotional product similar to those allowed by competing casinos in neighboring jurisdictions.

The Direct Bet Coupon regulations contemplates licensees utilizing computerized systems for instantaneous creation of Direct Bet Coupons (patron operated kiosks or casino staff

operated computer/printer system), or Direct bet Coupons printed by either gaming service providers or the licensees themselves (non-instantaneously produced). These non-instantaneously produced coupons represent "blanks" that may not contain all the required identifying information required under 603a.22(d) while held in inventory but must contain subsection (d) information at the time they are being issued to a patron for use. Instantaneously produced coupons must contain all subsection (d) information at time of printing, as this also represents the time of issuance to the patron.

A distinguishing procedural consideration between instantaneously produced and non-instantaneously produced coupons is that non-instantaneously produced coupons require additional inventory, control, and reconciliation procedures to ensure the "blank" coupons are not accidentally or intentionally misplaced or misappropriated. Instantaneously produced coupons are printed, or produced, at the time of issuance, meaning there are not "blank" coupons to be inventoried, controlled, monitored, and reconciled. Regardless of production method, all Direct Bet Coupons issued to patrons will be required to be accounted for in the Direct Bet Coupon Ledger and the monthly reporting to the Board.

Also under Annex A, Subpart L. Interactive Gaming, adds Chapter 819a relating to Interactive Gaming Progressives. This addition to the interactive gaming regulations finalized the framework for licensees to offer progressive wagers in the online gaming market. Specifically, section 819a.1 addresses an interactive gaming operator offering progressive wagers. Section 819a.2 provides the framework by which interactive gaming progressive wagers will be allowed to be offered collaboratively between multiple interactive gaming operators. One edit from the proposed rulemaking is incorporated, to correct a typo that referred to a slot system agreement rather than interactive gaming wide area progressive agreement.

Annex B of this rulemaking seeks finalizes edits to existing final form regulations. The first edit updates §633a.13(k) to remove an antiquated payable to ensure that payouts to patrons reflect probabilities of occurrence of events—namely that winning events with lower probabilities of occurrence (harder hands to achieve) should be rewarded with greater potential payouts.

Next, two edits are being made to chapter 687a, which provides the table game rules for DJ Wild Stud Poker. The first edit is

to the Two-Way Bad Beats Bonus Wager, under § 687a.11(f)(3). The revision corrects the regulatory language to provide that when either the player's or dealer's hand is comprised of a three-of-a-kind or better and loses, then the Two-Way Bad Beats Bonus Wager shall be deemed to have won. This edit corrects the language to ensure the Two-Way Bad Beats wager operates as originally intended. The second edit is to Paytable 1 under § 687a.12(c). The revision corrects an error in the published seed/reseed amount.

The final amendment in Annex B, changes the 30-minute timeout under §812a.9(c)(1) to a 15-minute timeout. This change makes the failure to receive a response timeout under § 812a.9(c)(1) match the requirement that a player re-enter their password after 15 minutes of player inactivity as provided by § 812a.3(a)(6).

No public comments were received on the proposed rulemaking.

Fiscal Impact

Commonwealth. The Board does not expect that this rulemaking will have a fiscal impact on the Board or other Commonwealth agencies. All work created because of this rulemaking will be handled by existing Board staff.

Political subdivisions. This rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

Private sector. This rulemaking will provide the regulated gaming market with increased promotion and game/wager options, while additionally providing clarifications by way of corrective edits. To the extent that the private sector may experience a fiscal impact, it is anticipated to be a positive fiscal impact.

General public. This rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

Licensees seeking to operate a direct bet coupon program will be required to maintain a Direct Bet Coupon Ledger and make periodic reports to the Board regarding direct bet coupon issuance and usage. Additionally, licensees would be required to make submissions for lab review software and hardware systems that would facilitate their direct bet coupon programs and would be required to submit appropriate forms to the Board for product

review. These forms constitute the same paperwork requirement for any PGCB lab submission.

Licensees seeking to operate an interactive gaming wide area progressive system will be required to submit for Board review and approval an interactive gaming wide area progressive agreement. This agreement will outline the roles and responsibilities of participating parties. This submission and the Board review and approval requirement is consistent with the process required for slot machine wide area progressive systems under 58 Pa. Code §461a.13.

All other provisions of this rulemaking will not create paperwork requirement beyond the established procedures for table games submissions and/or lab review submissions.

Effective Date

This final-form rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Regulatory Review
