Dear Kimberly,

RE: PROPOSED RULEMAKING ON INSURANCE PRODUCER LICENSING

On behalf of the Insurance Agents & Brokers of Pennsylvania (IA&B), thank you for the opportunity to review and provide comments on the proposed rulemaking regarding insurance producer licensing. We greatly appreciate the effort to streamline and simplify the regulation.

The adoption of this regulation will allow agents to better understand and apply the law as amended by Act 147 of 2002. We are particularly appreciative of the Department's efforts to work with IA&B and discuss concerns during the initial drafting of this proposed regulation over the past year, including important clarification regarding the role of the insurance producer as a representative of either the insurer or the consumer in a given transaction.

Again, we truly appreciate the open lines of communication and thank you for your work on updating this regulation.

Sincerely,

Johnathan Savant
Government Affairs Director
