RE: Support for Proposed Regulation 16A-5145 (CRNA)

Dear Members of the Board,

I am writing to express my strong support for proposed regulation 16A-5145, concerning Certified Registered Nurse Anesthetists (CRNAs) in the Commonwealth of Pennsylvania.

As a practicing CRNA with over a decade of clinical experience, I can confidently attest to the safety, skill, and professionalism that CRNAs bring to anesthesia care. We are highly educated, extensively trained, and consistently provide safe, high-quality anesthesia services to patients across diverse settings -- from rural clinics to major surgical centers.

This regulation is critical for the advancement of our profession and for improving access to timely, efficient care throughout Pennsylvania. Granting CRNAs full title recognition and appropriate regulatory autonomy is long overdue and aligns with standards already adopted in many other states. It ensures that patients, healthcare institutions, and the broader public can continue to benefit from the expertise and adaptability CRNAs offer -- particularly as the demand for anesthesia

services grows.

CRNAs are safe, cost-effective providers who work independently or collaboratively depending on the needs of their communities. Passage of 16A-5145 will affirm our essential role in the healthcare system and strengthen our ability to serve.

I respectfully urge the Board and the legislature to support and advance this regulation. It is a necessary step toward modernizing Pennsylvania's healthcare infrastructure and honoring the excellent, evidence-based care that CRNAs provide every day.

Sincerely,

Vincent Matthew Carbo, MSN, CRNA
